

## Assignment 5

Due – June 30'09

### FORMS

---

In this exercise you will create a form for your Web page and link it to your portfolio feedback page. The purpose of this exercise is to create an online survey form to get user feedback on your portfolio. Take a few minutes to research other website survey examples available on the Internet.

First, consider a mix of closed questions (multiple choice) and open-ended questions (users write down what they want to tell you). Make a list of questions you want to include in your form using any text processing tools (MS Word, or notepad). For example, you can ask what users want to find on your site, or if your site was easy to navigate etc.

Next, open a new html page in the Dreamweaver and follow the steps below to create your form

1. Insert a form
2. Include at least 3 text fields (open-ended questions)
3. Use at least 2 radio buttons (multiple choice questions)
4. Apply at least 2 checkboxes (multiple choice questions)
5. Insert a list with at least 3 values (drop down list)
6. Add form "submit" button
7. Label all the fields appropriately
8. Align your form elements using tables or CSS
9. Link this form to your portfolio → feedback page
10. Your form should have at least 10 items
