Speed Mentoring

November 9, 2012
What is the key to success?

What traits do successful people have in common?
Richard St. John's 8 Secrets of Success

For the Mentors:

“How do you feel these 8 secrets of success came into play for you in your life? Are there other secrets to success that you would add?”
“Has your definition of success changed over time? If so, how?”
“How would you describe your perfect job?”
Richard St. John's
The Power of Passion

“What is your passion?”

What are you passionate about?
There will always be stuff we don’t like, but have to do.

“What stuff do you NOT like to do?”

“Are you spending 80% of your time on what you love, or 80% on the stuff you don’t like?”

“Think of ways you can spend more time doing what you love.”

Anita Roddick said she loved retailing, but she didn’t like "systems, financial sheets or plans."
Hobbies and interests are the starting points for passion.

“What are your hobbies and interests?”

“What do you love doing so much that you’d do it for free? What you love about it?”
“What are you goals?”

“How will you attain them?”

“What are some strategies to overcome any potential obstacles?”
