Richard Lehrer PhD ’83
Distinguished Alumnus

Frank W. Mayborn Professor of science education at Vanderbilt University’s Peabody College speaks on

Innovative strategies for promoting science and mathematics among elementary school students:
Model-based reasoning, statistics, and educational technologies

Monday, May 2 at 4:00 PM
D’Ambra Auditorium, Life Sciences Building
University at Albany Uptown Campus

With math and science education at the forefront of the national education agenda, the timing couldn’t be better for Dr. Richard Lehrer, Frank W. Mayborn Professor of science education at Vanderbilt University’s Peabody College and internationally-renowned scholar, to be formally recognized by UAlbany for his work in the field. In late April, Richard Lehrer will receive the University at Albany Alumni Association’s most prestigious honor—the Distinguished Alumni Award—at the Alumni Association Excellence Awards Gala. Lehrer has had an exemplary career as a teacher, psychologist and pioneering researcher in the field of mathematics and science education. Through his decades of work Lehrer has served as an example to guide his students and colleagues toward progressive instruction and life-long learning.

This event is free and open to the public but an RSVP is required. Please RSVP to Sharon Malison at smalison@uamail.albany.edu. Light refreshments will be served.

Student posters for the 10th annual poster session of the Division of Educational Psychology and Methodology will be on display in the foyer prior to the lecture.

This event is sponsored by the School of Education & its Division of Educational Psychology and Methodology.
