Date: Tuesday, Feb. 23, 2016.

Time: 8:45 AM to 10:05 AM (regular class time).

Room: SS 255 (regular class room).

If there is an official cancellation of the class on Feb. 23, 2016, the exam will be held during the very next class meeting.

Syllabus: Divide-and-Conquer, Dynamic Programming and Greedy Algorithms. (Students are responsible for the material covered up to and including the lecture on Thursday, Feb. 18, 2016.)

Students must also know basic material from CSI 503.
Students may bring one sheet of 8.5 × 11 paper with material on both sides.

No other material is allowed. In particular, texts or other books, computers, calculators and other electronic devices are not allowed.

If statement of Master Theorem for recurrences is needed, it will be provided as part of the exam itself.

Please be sure to read and understand the “General Instructions for Homeworks and Examinations” handout which is available through the home page for the class.
