BREAKOUT SESSION ONE 12:45PM-2:00PM

1-A Learn to Play, Play to Learn

Presenter: Dana Reinecke, Ph.D., BCBA-D

This presentation will focus on the importance of play as a basis for learning in other areas, including language and social skills. The session will discuss how to select age-appropriate play skills as targets and strategies for teaching independent and social play skills. The relevance of play to other areas of functioning will be discussed, including practical examples. The use of play in teaching will also be addressed.

1-B The Role of Choice and Preference on Learning and Socialization in Students with ASD

Presenter: Kathleen Dyer, Ph.D., CCC-SLP, BCBA-D

Being able to make choices and have control over aspects of one's life is essential to personal liberty and happiness. However, having an opportunity to and being able to express choices can be severely compromised in the lives of persons with ASD. This session provides participants with practical strategies for teaching individuals with ASD how to communicate choices, and how to provide opportunities to exercise choice to improve learning and socialization with their teachers, peers and families.

1-C Self-Monitoring, Self-Management, and Self-Assessment: The Who, What, When, and Why of Effective Self-Management Interventions for Individuals with ASD

Presenters: Jamie Salter, Ed.S, BCBA and Katharine Croce, Ed.D., BCBA-D

The National Autism Centers' National Standards Project has identified 14 "established" treatments; one of which is self-monitoring. This session will explore peer-reviewed research that supports the implementation of self monitoring systems for individuals with autism of various ages and developmental levels. A discussion of self-monitoring procedures incorporating a "match" component will be presented as well.

1-D Executive Functioning Strategies to Keep Individuals with ASD Organized and On-Target ***NEW TOPIC***

Presenter: Kristin S. Knapp-Ines, Ph.D., BCBA-D

Executive functions are the cognitive tasks that allow us to plan, organize, initiate, attend to task, and regulate and monitor behavior. They are the key building blocks to learning! In this training, participants will learn how challenges with executive functions can impact academic achievement and social success. Participants will learn about how strategies to create supports to help teach executive functioning skills.

BREAKOUT SESSION TWO 2:15PM—3:30PM

2-A Literacy Skill Development: Creating a Balanced Literacy Program that Supports Children with Autism Spectrum Disorder

Presenter: Susan Whittaker, Ed.D.

Effective literacy skills enhances the quality of life for all individuals, including those with autism spectrum disorder. Literacy skills are necessary for reading and writing. They include awareness of the sounds of language and the relationship between letters and sounds. Other literacy skills include vocabulary, spelling, and comprehension. This presentation will emphasize key strategies to support a comprehensive literacy program.

2-B Naturalistic Communication Enhancement Strategies

Presenter: Kathleen Dyer, Ph.D., CCC-SLP, BCBA-D

Impairment in communication is one of the core deficits in persons with ASD, and difficulties in this areas can lead to problem behavior and isolation from regular community experiences. This session discusses strategies to teach students with ASD to request their preferences, protest non-preferred activities, and clarify misunderstandings. Included are guidelines for instruction of students who communicate in various modes, including gestural, vocal and augmentative and alternative communication (AAC). Participants will learn to techniques to assess, teach, and generalize these communication skills, with examples provided in school, community, and home settings.

2-C Self-Monitoring, Self-Management, and Self-Assessment: How to Set Up Systematic Self-Management Interventions for Individuals with ASD

Presenters: Jamie Salter, Ed.S, BCBA and Katharine Croce, Ed.D., BCBA-D

By systematically teaching children how to engage in more pro-social behaviors, they are able to better access learning and develop stronger relationships with others, leading to a better quality of life. This interactive and hands-on session will provide an opportunity to learn how to develop well-defined, systematic self-monitoring interventions and motivational systems. Participants will strengthen their knowledge of necessary considerations prior to implementing self-monitoring interventions and participants will leave this workshop with a comprehensive tool in hand to implement.

2-D Strategies to Motivate: Using Positive Approaches to Teach Social, Academic, and Daily Living Skills to Individuals with Autism Spectrum Disorders ***NEW TOPIC***

Presenter: Melissa Rinaldi, Ph.D.

This session will focus on the basic theories of motivation, basic principles of reinforcement, and how these theories and principles can be applied to increase motivation in school-age individuals with autism spectrum disorders. Discussions will include ways to teach, reinforce, and motivate to develop social, academic, and daily living skills in a variety of settings.
