The University at Albany currently offers a Certificate of Graduate Studies in Autism, with classes beginning in the Fall of 2018. This certificate is comprised of a three course (9 credits) sequence, which focuses on the characteristics of autism spectrum disorders and the science of applied behavior analysis. Empirically-validated techniques used to treat individuals with autism, as well as cultural, ethical, and practical issues, will be highlighted. The three-course sequence provides a comprehensive overview of autism spectrum disorders and methods for effectively intervening with this population. Upon successful completion of the program, students may partially meet the education and supervised experience requirements necessary for admission to the licensing examination for Certified Behavior Analyst Assistant (CBAA) with the NYS Education Department.

Requirements
Potential students for the program should already hold a bachelor's degree (or higher) in one of the following fields, or a related field:

- Applied Behavior Analysis
- Education
- Counseling
- Psychology
- Social Work
- School Psychology

To Apply
Submit the following:

- Online application with $75 fee by August 1, 2018
- Statement of background/goals
- Resume/CV
- Official Transcript(s)
