The Certificate of Graduate Studies in Autism effectively prepares participants for understanding and addressing the needs of individuals with autism spectrum disorders across the lifespan and in varied contexts including general and special education classrooms and community settings. The program is a three course sequence, which focuses on the characteristics of autism spectrum disorders and the science of applied behavior analysis.

The Certificate of Graduate Studies in Autism attracts individuals from many disciplines such as education, special education, speech-language pathology, psychology, school psychology, counseling, social work and related fields.

The Certificate of Graduate Studies in Autism at the University at Albany advances individuals in their field and supports them to:

- **Enhance Knowledge**
- **Gain Skills through Hands-On Learning**
- **Develop Professionally**
- **Promote Quality Programs for Individuals with Autism**

Meet the growing demand for highly qualified professionals who work with individuals on the autism spectrum.
**UAlbany is dedicated to preparing highly effective professionals. To achieve the goal, the Certificate of Graduate Studies in Autism program combines engaging in-classroom learning and direct hands on experience in the field.**

**OUR GRADUATES PUT THEIR SKILLS TO WORK**
