

Spring 2018 Biological Sciences Seminars

Biological Sciences - University at Albany
1400 Washington Avenue - Albany NY 12203
518-442-4300

Date:	Seminar Guest	Host
Jan. 29 & 30, 2018 (Faculty candidate)	Laura Kerosuo <i>"Dissecting Neural Crest Stemness in Development and Disease"</i> Division of Biology and Biological Engineering; California Institute of Technology Seminar: January 29, 2018 – 11:00 AM, Auditorium Chalk Talk: January 30, 2018 – 12:00 PM, LSRB 1143	Alex Valm
Jan. 31 & Feb. 1, 2018 (Faculty candidate)	Kai Lei <i>"Regulation of Cytogenesis in Development and Regeneration"</i> Stowers Institute for Medical Research Seminar: January 31, 2018 – 11:00 AM, Auditorium Chalk Talk: February 1, 2018 – 12:00 PM, LSRB 1143	Morgan Sammons
Feb. 5 & 6, 2018 (Faculty candidate)	ChangHwan Lee <i>"Quantitative understanding of Notch Transcriptional Response in Germline Stem Cells"</i> University of Wisconsin, Biochemistry Department Seminar: February 5, 2018 – 11:00 AM, Auditorium Chalk Talk: February 6, 2018 – 12:00 PM, LSRB 1143	Prashanth Rangan
February 9, 2018	Giovanni Mirabella <i>"The dark side of movements control"</i> Sapienza University, Rome, Italy Dept. of Anatomy, Histology, Forensic Medicine & Orthopedics	Annalisa Scimemi
Feb. 12 & 13, 2018 (Faculty candidate)	Jyoti Misra <i>"Interplay of Ubiquitination and Palmitoylation in Organ Size Control"</i> Microbiology, Rutgers, State University of New Jersey Seminar: February 12, 2018 – 11:00 AM, Auditorium Chalk Talk: February 13, 2018 – 12:00 PM, LSRB 1143	Mindy Larsen
February 23, 2018	Paul Kammermeier <i>"The unique interaction between mGluR1 & 5"</i> University of Rochester Medical Center, Department of Pharmacology and Physiology	Annalisa Scimemi
March 2, 2018	Cedric Feschotte <i>"Mobile DNA as catalyst of convergent evolution"</i> Cornell University, Department of Molecular Biology & Genetics	Marlene Belfort
March 9, 2018	Alfredo Fontanini <i>"Cortical processing of taste and expectation"</i> SUNY Stony Brook, Neurobiology & Behavior	Annalisa Scimemi
March 23, 2018	Weiping Zou, MD <i>"PD-L1/PD-1, immunotherapy and cancer microenvironment"</i> Professor of Surgery, Immunology and Biology & Co-Director of the Tumor Immunology and Transplantation Biology Program University of Michigan	Haijun Chen
April 6, 2018	Alex Ciota <i>"The role of genetic diversity in flavivirus adaptation and fitness"</i> SUNY Albany, Biomedical Science	Ing-Nang Wang
April 20, 2018	Lillian Fritz-Laylin <i>"Our evolving view of cell motility"</i> Assistant Professor of Biology University of Massachusetts, Amherst	Morgan Sammons
May 4, 2018	Jeff Collier <i>"Codon optimality is a major determinate of mRNA stability"</i> Center for RNA Science and Therapeutics Case Western Reserve University, Cleveland, OH	Gaby Fuchs

Seminars are at 3pm on Fridays in the D'Ambra Auditorium in the Life Sciences Building - University at Albany, unless otherwise noted
