

Advanced Data Analytics Lightning Talks Series

University at Albany
University Hall
1st Floor, Room 110

Dear Colleagues,

UAlbany's Advanced Data Analytics Network is pleased to invite you to the 2nd session of the 2017-18 Advanced Data Analytics Lightning Talks Series on Wednesday, November 15, 2017 at 3:00pm – 4:30pm in University Hall (UNH) Room 110.

This series is designed to provide the University at Albany community with a regular opportunity to learn about the analytics research conducted by faculty scholars, researchers, and other colleagues across campus, while at the same time, encourage cross-disciplinary collaborations.

The Advanced Data Analytics Lightning Talks can be used for many purposes; to test ideas, seek partners and resources, offer up skills and capability, to discuss curricular design questions, and to explore possibilities for external grants, among others.

The second session will be held on the uptown campus in UNH Room 110. Each speaker will present for 10 minutes with 5 minutes of Q&A. At the end of the session, there will be time for open discussion and networking.

November 15th Speakers / Topics

- **Todd Harbour**, Chief Data Officer of NYS
Topic: Controlled Unclassified Information
- **Petko Bogdanov**, Assistant Professor, Computer Science
Topic: Towards data-driven nano materials design: A case study for florescent silver nano-clusters
- **Mariya Zheleva**, Assistant Professor, Computer Science
Topic: Data Analytics for next-generation wireless networks

The Advanced Data Analytics Lightning Talks series is free and open to the public. If you have any questions about this program, please contact Julia Singleton at jsingleton@ctg.albany.edu.

We look forward to seeing you there!

The Advanced Data Analytics Steering Committee
