

Fall 2019 Biological Sciences Seminars

Biological Sciences - University at Albany
1400 Washington Avenue - Albany NY 12203
518-442-4300

Date:	Seminar Guest	Host
August 30, 2019	Simone Sidoli Albert Einstein College of Medicine, Biochemistry <i>"Five-Dimensional Mass Spectrometry to Investigate Epigenetics Epidemiology"</i>	Morgan Sammons
Sept. 6, 2019	Cara Pager tenure seminar UAlbany, Dept. of Biological Sciences <i>"The intracellular life of flaviviral RNA"</i>	
Sept. 20, 2019 Starts at 3:30 PM!	Life at the Intersection of Science and Engineering lecture David Liu, Harvard University, Professor of Chemistry and Chemical Biology <i>"Base Editing: Chemistry on a Target Nucleotide in the Genome of Living Cells Using Engineered and Evolved Proteins"</i>	
Sept. 27, 2019	Tomas Coate Georgetown University, Department of Biology <i>"Cellular and Molecular Mechanisms of Auditory Wiring"</i>	Paolo Forni
October 4, 2019	Joanna Sztuba-Solinska Auburn University, Biological Sciences <i>"Toward deconvolution of the structure-to-function relationship of viral RNAs"</i>	Cara Pager
October 11, 2019	Paolo Forni tenure seminar UAlbany, Dept. of Biological Sciences <i>"Molecular Mechanisms Underlying Cell Fate Determination, Connectivity and Migration of GnRH-1 and Vomeronasal Neurons"</i>	
October 18, 2019	Melinda Larsen promotion seminar UAlbany, Dept. of Biological Sciences <i>"Stromal Control of Salivary Gland Development and Repair"</i>	
October 25, 2019	Eric Wang University of Florida, Center for NeuroGenetics <i>"Leading a Double Life: Muscleblind Proteins in the Nucleus and Cytoplasm"</i>	Andy Berglund
November 1, 2019	C. Brandon Ogbunu Brown University, Department of Ecology and Evolutionary Biology <i>"Rethinking indirectly-transmitted Infections: Unified Models on the Ecology of Disease"</i>	Wendy Turner
November 8, 2019	Juan Fuxman Bass Boston University, Department of Biology <i>"Gene regulatory network wiring and rewiring in disease"</i>	Morgan Sammons
November 15, 2019	Liz Gavis Princeton, Department of Molecular Biology <i>"Assembly and regulation of germline RNA granules"</i>	Prash Rangan
November 22, 2019	Melissa Warden Cornell, Department of Neurology and Behavior <i>"Serotonin and Adaptive Behavioral Regulation"</i>	Annalisa Scimemi
December 6, 2019	Ekaterina Likhtik CUNY, Department of Biology <i>"Circuit communication during learned fear suppression"</i>	Annalisa Scimemi
December 13, 2019	Victoria D'Souza Harvard University, Molecular and Cellular Biology <i>"Unraveling Viral RNA Genomes: One Segment at a Time"</i>	Cara Pager

Seminars are at 3pm on Fridays in the D'Ambra Auditorium in the Life Sciences Building - University at Albany, unless otherwise noted
