

## **Announcing the Computer Science Department's Spring 2018 Discrete Mathematics Proficiency Exam !!**

This spring's Discrete Mathematics Exam will be on Tuesday evening, 23 January 2018, from 6:00pm to 8:30 pm in LC 18. The lecture hall doors will be open for students taking the exam at 5:45 pm. For our new, incoming CS masters students, as well as current students, who may still need to complete the CS Department Discrete Math Exam requirement, this is the ideal opportunity for you to demonstrate your proficiency in discrete mathematics, and satisfy a key milestone necessary for receiving the Master's Degree in Computer Science from UAlbany.

- The exam starts promptly at 6pm, you will not be permitted to enter the lecture center, or start the exam after 6:05pm.
- Bring your SUNY ID (or some other government issued photo ID)
- Bring your own pencils, and erasers. Test exam booklets will be provided.
- No calculators, computers, cell phones or other mobile devices are allowed in the exam.
- No talking between students during the exam is prohibited. Violators will be ejected from the exam.

To sign up for this spring's exam, please send your request to Anna Zhao, [hzhou@albany.edu](mailto:hzhou@albany.edu). Include your name and student ID number, and netID number. Be sure to send your request using your UAlbany email ID, requests coming from non-UAlbany email IDs will not be accepted. All sign ups must be done prior to the evening of the exam, there will be no sign up registration at the exam site.

Again this semester, we will be using Blackboard to distribute information prior to the exam, and later to post exam scores. Anna will use your name and ID number to add you to the membership list for our DME Blackboard site, from which you will be able to access information about the exam, including prior exam questions and solutions.

Sincerely,

The Discrete Mathematics Examination Committee

Professor Paliath Narendran, Chair  
Professor Chinwe Ekenna  
Professor Pradeep Atrey
