

Announcing the Computer Science Department's Spring 2019 Discrete Mathematics Proficiency Exam!!

Dear Students:

The Spring 2019 Discrete Mathematics Exam will be on Tuesday, January 22, 2019 from 6pm to 8pm. For current students who need to complete the discrete mathematics proficiency requirements for graduation, and new students whose undergraduate programs have adequately prepared them for this challenging exam, **this is the ideal opportunity for you to demonstrate your proficiency in discrete mathematics, as well as satisfy a key degree requirement which is necessary for receiving the Master's Degree in Computer Science from UAlbany. You're only allowed to take this exam twice.**

- The test location will be announced later.
- The exam starts promptly at 6pm. You will not be permitted to enter the test room, or start the exam after 6:05pm.
- Bring your SUNY ID (or some other government issued photo ID such as passport or driver's license)
- *Nothing can be shared during the exam:* bring your own pencils and erasers. Test exam booklets will be provided.
- No calculators, computers, cell phones or other mobile devices are allowed in the exam.
- No talking between students during the exam is allowed. Violators will be ejected from the exam and will be subject to disciplinary action.

To sign up for next Spring's DME exam, please send your request to Anna Zhou, hzhou@albany.edu. **Please include your full name, student ID number, and net ID number.** Be sure to send your request using your UAlbany email ID; requests coming from non-UAlbany email IDs will not be accepted. All sign ups must be done *prior* to the evening of the exam; there will be no registration at the exam site. Anna will use your name and ID number to add you to the membership list for our DME Blackboard site, from which you will be able to access information about the exam, including past exam questions and solutions.

Sincerely,

The Discrete Mathematics Examination Committee
Professor Paliath Narendran, Chair
Professor Chinwe Ekenna
Professor Pradeep Atrey
