

## FALL 2018 SEMINAR SERIES

- September 4 **Jia Sheng**  
University at Albany  
*“Understanding Nature’s Strategies to Diversify RNA Structures and Functions”*
- September 11 **Mehmet Yigit**  
University at Albany  
*“Development of Nanotechnologies for Biosystem Analysis and Controllable Therapeutics”*
- September 18 **Ethics Training**
- September 25 **Jan Halamek**  
University at Albany  
*“TBD”*
- October 2 **Eric Anslyn**  
University of Texas Austin  
*“TBD”*  
*Host: Qiang Zhang*
- October 9 **Nicola Pohl**  
University of Indiana Bloomington  
*“Toward Digital Native Chemistry: The Case of Carbohydrates and Peptides/Peptoids”*  
*Host: Ting Wang*
- October 18 **Gregory Van Buskirk**  
SageWay Solutions, LLC in San Francisco, CA.  
*“TBD”*  
*Host: Li Niu*
- October 23 **Dan Luo**  
Cornell University  
*“DNA-based Materials”*  
*Host: Mehmet Yigit*
- October 30 **Christian Pellerin**  
University of Montreal  
*“Shining Light on Materials: Spectroscopy of Fibers and Azomaterials”*  
*Host: Igor Lednev*

- November 6 **Maciej Walczak**  
University of Colorado  
*“Next-generation Tools for the Synthesis of Small Molecules and Biologics”*  
Host: Qiang Zhang
- November 13 **Yanna Liang**  
University at Albany  
*“Biofuels and Bioproducts From Various Feedstocks: A Combination of Biochemical, Thermochemical and Bioelectrochemical Processes”*  
Host: Alan Chen
- November 27 **Tianning Diao**  
New York University  
*“Strategies for Nickel-Catalyzed Alkene Functionalization”*  
Host: Zhang Wang

**Life Science D’Ambra Auditorium**  
Seminars begin at 10:30 AM  
Light refreshments at 10:15 AM  
FREE and OPEN to the PUBLIC
