Overview

The year of 2018 is a productive year for UAlbany CI. CI has made big strides in teaching, cultural and academic programs, and has gain tremendous recognition from the community.

CI offered language and cultural classes to about 100 credit and non-credit students, co-organized annual Chinese/Japanese/Korean Language Speaking Contest with EAS. CI also organized 2 pedagogical training workshops for the local Chinese teachers, with a total of 105 participants. Culturally, CI organized 13 events of various kinds, covering a variety of topics, among which two were large cultural performances, and the total number of participants reaches about 5000. Cultural activities are more diverse, from performance to book exhibit, from arts to traditional Chinese medicine and Buddhism, which attracted a wider range of people and received numerous positive feedbacks. Academically, CI’s Speaker Series invited 10 distinguished China scholars from different disciplines to campus to present their research, which greatly benefits UAlbany faculty and students. In addition, an international symposium on housing was organized at SWUFE, which has greatly increased UAlbany’s visibility in China and among China scholars.

The year of 2018 is the key year to renew the collaborative agreement for UAlbany CI. With CI’s hard work with its board members, the International Exchange and Cooperation Institutes from both UAlbany and SWUFE, the three-party renewal agreement has been signed between Hanban, UAlbany and RF in the summer, which is followed by the signing of the two-party agreement between UAlbany and SWUFE. On August 26, 2018 Professor Zhuo Zhi, the SWUFE President, and his delegation, visited UAlbany and signed the Agreement with UAlbany to continue collaboration through CI, which marks the recognition of CI’s 5 years’ achievements and great expectation towards CI’s future.

CI has also significantly strengthened its services and engagement with the community. Strong partnerships have been developed with several local public libraries, several k-12 schools, Chinese Community Center, Chinese School, and Clarkson University (MA program in Teaching). CI also helped to establish 3 educational collaboration programs between UAlbany and SWUFE.

CI has experience personnel changes in 2018. The Assistant to the Director Ling Li was let go in August due to her poor performance, and a new Assistant Emily Jie Wang was hired in September, 2018. A new professional webmaster Ming Zhang was hired due to the graduation of the previous webmaster Kailing Li who was a UAlbany student.

The following is a list of events and activities CI has organized during the year 2018 (Unless noted otherwise, events are held at UAlbany uptown campus).
Ten scholars from a wide range of disciplines were invited to UAlbany to present their research on various aspects of China. With the high quality of these research presentations, CI’s Speaker Series has gained much recognition from both faculty and students on campus, and members from the community. For each talk, we have attracted 40 - 80 people. In particular, in the Fall semester, we moved the seminar time from 3:00 pm to 12:00 pm on Friday, which has made it much easier for faculty and students to attend, and thus have attracted a much larger audience.
