## KEYNOTE PRESENTATION

### “I Am Michael Sam”

*NCAA All-American Football Player  
and LGBT Athlete*

Tuesday, February 7th  
8:00 PM  
Campus Center Ballroom  
University at Albany

University of Missouri football star, NFL free agent and trailblazer, Michael Sam is an American football defensive end who made history when he came out as gay ahead of the NFL draft, making him the first openly-LGBT player to be drafted in any major American sport. Since his announcement, through scrutiny, criticism and unreserved admiration, he has become an icon and pioneer for the LGBT community.

Hailing from a tiny Texas town and the 7th of 8 children, Sam endured a childhood overrun with adversity, challenges and pain. With a portion of his early years spent living in a car with his mother, Sam developed steadfast determination to make a better life for himself, identifying sports as his ticket out. With unrelenting athletic aspirations, he went from water boy to star player, earning first-team All-District honors all four years of high school. Presented with offers from numerous leading schools, Sam secured a football scholarship at Missouri and thrived with an exceptional career, culminating in being named a first-team All-American and Co-SEC Defensive Player of the Year.

Predicted to be drafted early in the 2014 NFL draft, Sam was drafted by the St. Louis Rams as the 249th of 256 players selected, after he came out as gay during an ESPN interview. He is currently an NFL free agent.

In 2014, he was named one of *GQ* Magazine’s Men of the Year, was a finalist for Sports Illustrated Sportsman of the Year and the recipient of the Arthur Ashe Courage Award at the ESPYs.

A role model and trailblazer for inclusion in sports, revered for his unswerving courage, graciousness and fortitude, Sam offers firsthand insight into leveraging individual personal strengths to pursue ones dreams, inspiring audiences with perspective on what it means to work hard to define and achieve success.

#### FEATURED EVENT: AMERICAN GIRLS: SOCIAL MEDIA AND THE SECRET LIVES OF TEENAGERS (2016)

*Nancy Jo Sales*

The dominant force in the lives of girls coming of age in America today is social media. What it is doing to an entire generation of young women is the subject of award-winning *Vanity Fair* writer Nancy Jo Sales's riveting and explosive *American Girls*. With extraordinary intimacy and precision, Sales captures what it feels like to be a girl in America today.

From Montclair to Manhattan and Los Angeles, from Florida and Arizona to Texas and Kentucky, Sales crisscrossed the country, speaking to more than two hundred girls, ages thirteen to nineteen, and documenting a massive change in the way girls are growing up, a phenomenon that transcends race, geography, and household income. *American Girls* provides a disturbing portrait of the end of childhood as we know it and of the inexorable and ubiquitous experience of a new kind of adolescence—one dominated by new social and sexual norms, where a girl's first crushes and experiences of longing and romance occur in an accelerated electronic environment; where issues of identity and self-esteem are magnified and transformed by social platforms that provide instantaneous judgment. *(Continued on page 10)*

## FEATURED EVENT: AMERICAN GIRLS: SOCIAL MEDIA AND THE SECRET LIVES OF TEENAGERS (2016)

*Nancy Jo Sales*

*(Continued from page 9)*

What does it mean to be a girl in America in 2016? It means coming of age online in a hypersexualized culture that has normalized extreme behavior, from pornography to the casual exchange of nude photographs; a culture rife with a virulent new strain of sexism and a sometimes self-undermining notion of feminist empowerment; a culture in which teenagers are spending so much time on technology and social media that they are not developing basic communication skills.

From beauty gurus to slut-shaming to a disconcerting trend of exhibitionism, Nancy Jo Sales provides a shocking window into the troubling world of today's teenage girls. Provocative and urgent, *American Girls* is destined to ignite a much-needed conversation about how we can help our daughters and sons negotiate unprecedented new challenges.

### SUSTAINABLE DEVELOPMENT GOALS AND SEXUAL HEALTH

---

The Sustainable Development Goals (SDGs) are meant to help with environmental issues and social issues such as sexual health. They apply internationally and nationally and aim to bring change to the world by 2030. The SDGs embody many key aspects of law and policy relating to the environment but more than that, they are a vital way to focus on sexual health issues at the international and national levels. This panel will discuss the relationships between the Sustainable Development Goals (SDGs), sexual health, and often overlooked yet vulnerable populations. Dr. Harrington will provide an overview of the SDGs and their attempts to protect vulnerable populations generally, Dr. Savoie will address issues involving disabled communities and sexual health protections and Ms. Johnson will add an additional dimension to this discussion based on her advocacy and research through the Kennedy Krieger Institute. Professor Armstrong will address issues involving labor rights and sexual health, and Dr. Koutouki will address issues involving indigenous populations and sexual health. Participants will leave the panel discussion with a better understanding of the SDGs and the role sexuality plays in attaining the SDGs.

Presenters: *Alexandra Harrington, J.D., LL.M., Doctor of Civil Law, Albany Law School and Adjunct Faculty Member, University at Albany, Assistant Director, Global Institute for Health and Human Rights; Lead Counsel for Cross-Cutting Legal Issues, Centre for International Sustainable Development Law*

### THE EMPOWERED BYSTANDER: WE NEED YOU TO PREVENT SEXUAL VIOLENCE

---

Sexual violence is happening at alarming rates on college campuses across the nation. You have the power to stop it. Through this training, we will challenge your belief about what it means to be an active bystander and introduce you to the idea of empowered bystander – a person who also intervenes in a positive way when he or she observes inappropriate behaviors or warning signs of violence. We will empower and encourage you to be these active, positive bystanders. We will teach you the different methods for an active, positive bystander intervention so you have the tools you need to make a difference. In this way we will change the culture and reduce violence.

### NONBINARY MYTHS AND REALITIES

---

More and more, we're seeing students and youth come out as nonbinary, genderqueer, or gender nonconforming. However, they are neither always at the forefront of discussions around trans issues, nor are they constantly visible & utilized as an example of a trans identity. In this workshop, we'll go through a Nonbinary/Genderqueer 101, as well as unpack the narratives that are frequently used in discussions in order to understand how to have productive conversations and analyses of their issues and struggles.

Presenter: **Kaleb Oliver Dornheim**  
*Graduate Student, Women's, Gender & Sexuality Studies*

## ABOUT SEXUALITY MONTH

During the 34 years that Sexuality Month has been in existence at the University at Albany, college students across the nation have been faced with critical issues and choices. Concerns related to gender and sexuality, HIV/AIDS and other sexually transmitted infections, relationships, identity, and reproductive health have remained at the forefront across time.

In recognition of the importance of the above issues for students, the content of programs within Sexuality Month reflects these key themes. In this way, we hope to meet the needs of our students as well as to provide a retrospective and prospective look at the issues.

All programs listed in this brochure will be presented or supervised by individuals with expertise in the topic area. We hope the information that will be presented will encourage learning, dialogue, and critical thinking, and will continue to move Middle Earth forward in its mission of prevention and the promotion of health.
