Cultural Competency and Implicit Bias

Cultural Competence includes the ability to understand, appreciate, and interact with persons from cultures, backgrounds, and/or belief systems that are different from one’s own. Implicit (or unconscious) biases are learned stereotypes that are automatic, unintentional, deeply ingrained, universal, and which generally influence behavior.

Join us for this 90-minute workshop designed to increase your awareness in these areas.

- Participants will be introduced to the concept of ‘privilege’ and how privilege influences one’s perceptions, words, and actions.
- Some group work will be done to facilitate learning, using customized scenarios.

Workshop Facilitator: Samuel Caldwell, MBA, Lean Six Sigma Black Belt. Associate Director, Office of Diversity and Inclusion. Samuel has 30+ years of professional and military experience in a number of disciplines including higher education, project management, government affairs, community engagement, operations and customer care. He has led dozens of cross-functional teams in the areas of process improvement and process engineering, to improve end user experience.
