

# PROJECT WORK ALERT NOTIFICATION

March 8, 2021

UPTOWN CAMPUS

## Academic Podium and Life Science Research Building

### 1.6 MW Solar PV Power System

Project / Work Order #: P-0873

ESTIMATED START: 3/8/2021 12:00 AM  
ESTIMATED END: 7/31/2021 12:00 AM

**Project Description / Scope:**

This project is part of the University at Albany Energy Master Plan. The project is to install a 1.6MW Solar power system with photovoltaic panels installed across much of the Podium roof and the LSRB roof. Those panels will be connected to a transformer located in the courtyard between Biology and the LSRB which will supply the generated electricity into the campus electrical grid.

The work will primarily be on the building rooftops and in the BI/LSRB courtyard. The project’s main staging area will be at Visitor Lot 3 at the west end of the Podium. There will be numerous lifting events to move material from the staging area up to the rooftops. Those lifts will be coordinated as they occur and may result in some temporary changes to building access/egress routes.
