Project Description / Scope:
The University is working in conjunction with CDTA to provide greater transportation services with the creation of Bus Rapid Transit (BRT) Gardenway through the campus (Alumni Drive) from Boor Studio to Fuller Rd. The project includes a new road with new lighting, pedestrian sidewalks & landscaping on campus. The project began March 14th and will continue through 3 phases of construction through the end of 2022. In this current phase the contractor will finish installing the new parking lot and roadway on the east side of UPD. The road (Alumni Drive) will remain closed from East University Drive to west Grounds/Mech Repair. UPD will remain accessible through the grounds area. Emergency services will not be interrupted.
