

PROJECT WORK ALERT NOTIFICATION

December 11, 2019

UPTOWN CAMPUS

Biology Building

Class Lab Phase VI Renovations

Project / Work Order #: P-0997

ESTIMATED START: 12/18/2019 12:00 AM
ESTIMATED END: 12/20/2019 12:00 AM

Project Description / Scope:

This project is to renovate several classroom labs in the Biology and Chemistry buildings. The work includes demolition and asbestos abatement, upgrades to local mechanical, electrical and plumbing systems. New finishes throughout the spaces are also being installed

During this work period asbestos abatement will take place in the section of the tunnel that runs adjacent to the Biology Building and a small area near Chemistry. During this time there will be no traffic allowed through the tunnel along the Biology building. Pedestrian traffic can still use the Biology basement hallway to get around this section of tunnel. There will also be a small section adjacent to the Chemistry building that will be walled off while some HVAC equipment is taken down but will remain passable during the day. This work is expected to last 2 to 3 days/nights.

POTENTIAL IMPACT ON SURROUNDING AREAS: (please check all that apply)
