ESTIMATED END: 8/21/2020 5:00 PM

Project Description / Scope:

CDTA is constructing a new bus station on the Harriman Campus in front of the University's new ETEC building. As part of this project a new intercampus connector road will be installed to connect the Uptown Campus to the Harriman Campus. This road will follow the route of the existing access road from University Drive to the rear of Boor Sculpture Studio.

The CDTA contractor is planning on starting mobilization/preparation work (installing traffic work zone signs) the week of April 20th. During this time the access road to the Studio will remain open to vehicle traffic.

Site clearing work is anticipated to start the week of May 4th. At this time the access road to the Studio will be closed to vehicle traffic.

Opening of the new connector road that will also provide vehicle access to Boor Studio is anticipated to occur in mid to late August.
