ESTIMATED END: **5/28/2020 10:00 AM**

Project Description / Scope:

Two (2) separate power outages of Service Building A (SBA) and Service Building A Annex (SBA-A) are required as part of the SUCF 011006 Central Plant Upgrades project. These power shutdowns are necessary to install, and then remove, a temporary power feed to SBA and SBA-A so that a main power transformer in the Power Plant can be shut down for construction work during the annual Power Plant shutdown period.

These two (2) separate power outages will be as follows:

Friday, May 15th, from 5:00 AM to 10:00 AM

Thursday, May 28th, from 5:00 AM to 10:00 AM

During these outages there will be no power to these buildings, with the exception of emergency battery back-up power to building fire alarm systems. As a result, there will be no card access, lighting, heating/cooling, computer, phone and elevator service.
