Project / Work Order # **P-0021**

ESTIMATED START: 06/27/2011 07:00 AM

ESTIMATED END: 07/08/2011 05:00 PM

PROJECT DESCRIPTION/SCOPE:

Storm and sanitary sewer pipes located on the south side of Indian Quad and under the parking area on the west side of the Power Plant will be rehabilitated using a process called Cured in Place Pipe. In order to avoid any interruption of service to the areas, above ground bypass piping that is well marked with safety cones will be utilized. The work will create very little disruption, greatly improve flow rates and reduce the likelihood of future pipe failures. Logistics indicate that the roadway between the Power Plant and SBA be closed during this period. Exiting from parking area has to be onto Fuller Road.
