Occupancy Class:
B, Business

Construction Type:
IB

Emergency Egress or Escape Routes:
Basement – exits can be found at the Southeast, Southwest and Northwest corners of
the building. Exit stairs to the first floor can be found at the South and North ends as
well as the Northeast corner of the building.

First Floor – exit to the exterior of the structure from the Southeast, South, Southwest,
Northeast, North or Northwest sides of the structure.

Second and Third Floors – exits stair towers are located at the Southeast, South,
Southwest, Northeast, North or Northwest sides of the structure. Follow stairs to the
exterior of the structure.

All building occupants shall seek these marked means of egress routes and exit the
building using the nearest exit upon the activation of the audible and visual notification
signals for the fire alarm system.

Procedures for Critical Employees:
Assigned building Fire Marshals and Assistant Fire Marshals may check rooms and
encourage building occupants to exit on their own way out of the building. No building
occupants shall loiter in or re-enter the building during an alarm of fire.

Procedures for Use of Elevators During Emergency:
Elevators shall not be used as a means of egress during an alarm of fire.

Procedures for Assisted Rescue:
Persons unable to exit the building on their own shall seek refuge in one of the fire rated
egress stair towers. Persons seeking refuge in the stair tower shall use the blue light
telephone to request assistance in rescue from the building.
Accountability Procedures:

Supervisors and instructors shall account for their employees and students once they have exited from the building.

Identification of Personnel Responsible for Rescue:

Personnel from the City of Albany Department of Fire and Emergency Services shall be tasked with performing rescues and providing medical assistance in buildings under an alarm of fire.

No University at Albany employee shall be required to enter a building under an alarm of fire in order to perform a rescue or provide medical assistance.

Preferred and Alternative Means of Notifying Occupants of Fire or Emergency:

Persons discovering a fire in the building shall alert building occupants by pulling the manual fire alarm pull station located near an exit discharge door.

Preferred and Alternative Means of Reporting Fires:

Persons discovering a fire in the building shall report said fire by pulling the manual fire alarm pull station located near an exit discharge door.

Additionally, persons can contact the 911 dispatcher by using a blue light automatic dial telephone, dialing 518-442-3131 from a cell phone, or dialing 911 from a campus phone.

Further Information about Evacuation Plan:

Further information about this Evacuation Plan / Emergency Action Plan may be obtained by contacting the University at Albany Code Administration – Fire Safety at 518-442-3400. Fire Safety Manager Eric Fletcher can provide more information about this plan.

Training:

The University at Albany shall provide three emergency evacuation drills per year. One drill shall occur in the Spring Semester, one drill shall occur in the Summer Session, and the third drill shall occur in the Fall Semester. All building occupants shall participate in these drills.
