E Psy 400  
Instructional Psychology (3)  
This course is offered online through the Blackboard Learning System. Intensive investigation of theories and research in learning and motivation as they apply to classroom instruction. Prerequisite(s): junior or senior class standing.  
(1857) McLaughlin, Timothy  
6 Week 2: June 24-August 2  
*Online course in Blackboard*

E Psy 490  
Human Development Internship (3)  
Monitored and evaluated field experience in an environment related to the student's field of study and/or career interests. The course includes academic assignments that focus on the creation of learning
objectives, reflection, and evaluation. All course assignments may be submitted online, allowing students to participate in internships in a variety of locations. Students are required to complete a minimum of 135 on-site internship hours over the duration of the term in which they are registered. Academic work is in addition to hours worked as part of the internship. Course enrollment is limited to Human Development majors and placements must be approved by the course instructor. Students will be required to participate in an internship orientation prior to starting the course. Note: equivalent credit for prior experience is not available due to the academic component of the internship course. Prerequisite(s): E PSY 200, permission of instructor; must be at least a second semester sophomore and a Human Development major. S/U graded.

(2318) Newton, Dayna
12 Week: May 28-August 16

**Graduate Courses**

E Psy 521
Development in Childhood (3)
*This course is offered online through the Blackboard Learning System.* This course focuses on the young child (birth through age 11), especially the development of cognition and social-emotional characteristics. Emphasis will be placed on major developmental theories, methods of studying child development, and the implications of child characteristics for instruction, assessment, and the attainment of the NYS Learning Standards.

(1105) Cosgrove, Gina
6 Week 1: May 28-July 5
*Online course in Blackboard*
(2401) Cosgrove, Gina
6 Week 3: July 8-August 16
*Online course in Blackboard*

E Psy 522
Adolescent Development (3)
*This course is offered online through the Blackboard Learning System.* This course focuses on development during middle childhood and adolescence (ages 10 through 18) with emphasis on the interaction of biological, psychological, and school forces. Topics include individual and group differences, their implications for teaching and advising students, general theories of adolescent development, and a variety of issues facing adolescents. Permission of instructor is required.

(1366) Keating, Anna
6 Week 1: May 28-July 5
*Online course in Blackboard*
(1939) Schlomer, Gabriel
6 Week 2: June 24-August 2
*Online course in Blackboard*
