April 2019

Tip of the Month

Pre-Registration

It is time for student organization pre-registrations! By now, student organizations should have already completed elections for their 2019-2020 executive board. All student organization Presidents-Elect must pre-register their organization by May 27th in order to access University services. After hearing from many student leaders, we are making it easier for them to maintain active status over the summer months. Pre-registration is the first step of the student organization registration process. Presidents-Elect must pre-register their organization so that the University can communicate with them and potential organization members can learn more about their organizations information over the summer. The fall registration process will be launched in November 2019. More information about the fall registration will be released this summer.

To pre-register, Presidents-Elect must be in the "manage" section of their organization's MyInvolvement page. They can then simply click the blue link on their organizations page to get started.

If you have any questions, please contact the Student Organization Resource Center at (518) 442-5548 or sorc@albany.edu.

Purple and Gold Awards

Student Association's Student Group Affairs hosted Purple and Gold Awards in the CC Ballroom earlier this month. Congratulations to Rookie of the Year Award recipients PULSE and Enlightened Care as well as Student Group of the Year Award recipient Albany State Indian Alliance as well as other student organizations who were recognized at this very prestigious event!
