

UNIVERSITY AT ALBANY JOURNAL SUPPORT AWARD FALL AND SPRING, 2013-14

GENERAL INFORMATION

The University at Albany Journal Support Award is available on a competitive basis to provide editorial support for up to three years. Applicants re-apply for a second three-year period. Edited series and journals that have already received more than six years of support are not eligible for funding. Renewal applications must include financial statements showing how research funds were used during any prior award periods. The award funds are not to be used for the purchase of computers or general office equipment.

At a minimum, requests for journal support must demonstrate the following in order to be eligible for consideration:

- A substantial amount of the support from sources other than the applicant's Department Chair and Dean. The budget identifies and itemizes all sources of support and demonstrates that there is a sufficient amount available to make the publication financially feasible.
- Documentation of matching support from the applicant's Department Chair and Dean.

Applicants should provide a brief explanation of what the consequences will be if the amount that is awarded is reduced from the requested amount, or if no award is made.

AWARD AMOUNTS

Actual awards may vary depending on the number of activities recommended for funding from the limited pool available and on the particular nature of the activity.

acknowledged to be among the top research publications in the discipline;

Requests for journal support with the following attributes will receive second highest priority and may be granted up to \$1,500 in research support:
