FRATERNITY AND SORORITY LIFE

Why join a fraternity or sorority? Fraternity and sorority life embodies the vow to develop students into leaders who uphold the values, oaths, and commitments to our founding principles of scholarship, service, leadership, and community.

Scholarship

Academics is part of our fraternal community values. That’s why we require a minimum GPA in order to become and remain an active member. Many fraternities and sororities have educational programs, such as tutoring and study sessions, which can assist the entire chapter in excelling academically. Since obtaining a degree is the main reason for attending the university, students must keep up their grades if they want to participate in fraternity and sorority life.

Prospective Members

All potential new members must meet certain criteria prior to the start of their new member education/pledge process. If you have any questions or concerns, please contact a member of the Fraternity and Sorority Life staff in the Office of Student Involvement.

Interested students should:
- Be at least a second semester freshman with 12 completed college credits.
- Have at least a 2.65 cumulative GPA (no exceptions); transfer students must have at least a 3.0 cumulative GPA from their previous institution (no exceptions).
- Complete Fraternity and Sorority Life 101 on MyInvolvement.

Joining Our Community

On average, when joining an organization students should expect to contribute two to four hours per week for meetings and mandatory activities. If time permits, you can also choose to participate in optional activities such as holding an office, attending social events, and helping out with various projects. Some organizations require more time than others. It is always best to ask questions regarding time commitments during recruitment.

FERPA Information for Parents and Guardians

The Family Educational Rights and Privacy Act (FERPA) is a federal privacy law that sets forth requirements regarding the privacy of student records. This law governs the disclosure of education records maintained by the University at Albany as well as access to these records.

When a student turns 18 years old or enters a postsecondary institution at any age, all rights afforded to parents under FERPA transfer to the student. However, FERPA also provides ways in which schools may share information with parents. For example, schools may disclose certain education records to parents or guardians if there is a health or safety emergency involving the student.

Your student’s grades, degree audit, advisor, and course information can be accessed through MyUAlbany. If you would like to access this information, we encourage you to sit down with your student during school breaks so you may review MyUAlbany together.

Information pertaining to a student’s record is classified as either “directory” or “non-directory” information. Directory information is information that we can disclose to any 3rd party without requiring the student’s consent. At the University at Albany, directory information includes name, address, undergraduate/graduate status, dates of attendance, degrees completed, program of study (major), and honors or awards. While this is information that we may disclose, we always use the utmost discretion when releasing student information. Non-directory information includes all other information in the student’s record, like grades, course enrollment, and disciplinary records.

If you would like to obtain non-directory information from the University at Albany, we first must obtain written consent from the student. The student can complete the Student Consent to Release Information form (notarization required) available on the Registrar’s website. The Student Consent to Release Information form allows the University at Albany to disclose non-directory education records with the 3rd party indicated on the form.

Before disclosing non-directory information, we must verify the identity of the 3rd party making the request. We do this by requesting a notarized signature or checking a government-issued ID. For this reason, requests for non-directory information must be made in writing or in person. We cannot release any non-directory information over the phone, even with a Student Consent to Release Information form on file. Again, we encourage you to use the resources available through MyUAlbany to see your student’s grades, degree audit, and other information.
