§ 2879. Procurement contracts. 1. Every public authority and public benefit corporation, a majority of the members of which consist of persons either appointed by the governor or who serve as members by virtue of holding a civil office of the state, or a combination thereof, (such entities to be hereinafter in this section referred to as "corporation") shall adopt by resolution comprehensive guidelines which detail the corporation's operative policy and instructions regarding the use, awarding, monitoring and reporting of procurement contracts. Guidelines approved by the corporation shall be annually reviewed and approved by the corporation.

2. For purposes of this section, procurement contracts shall mean any written agreement for the acquisition of goods or services of any kind, in the actual or estimated amount of five thousand dollars or more.

3. The guidelines approved by the corporation shall include, but not be limited to the following:
   (a) A description of the types of goods purchased, and for procurement contracts for services, a description of those areas of responsibility and oversight requiring the use of personal services and the reasons for the use of personal services in such areas.
   (b) Requirements regarding the selection of contractors, which shall include provisions:
      (i) for the selection of such contractors on a competitive basis, and provisions relating to the circumstances under which the board may by resolution waive competition, including, notwithstanding any other provision of law requiring competition, the purchase of goods or services from small business concerns or those certified as minority or women-owned business enterprises, or goods or technology that are recycled or remanufactured, in an amount not to exceed two hundred thousand dollars without a formal competitive process;
      (ii) describing when the award of procurement contracts shall require approval of the board by resolution, provided that any contract involving services to be rendered over a period in excess of one year shall require the approval of the board by resolution and an annual review of the contract by the board;
      (iii) setting forth responsibilities of contractors;
      (iv) as used in this subparagraph, the term "professional firm" shall be defined as any individual or sole proprietorship, partnership, corporation, association, or other legal entity permitted by law to practice the professions of architecture, engineering or surveying. The corporation shall not refuse to negotiate with a professional firm solely because the ratio of the "allowable indirect costs" to direct labor costs of the professional firm or the hourly labor rate in any labor category of the professional firm exceeds a limitation generally set by the corporation in the determination of the reasonableness of the estimated cost of services to be rendered by the professional firm, but rather the corporation should also consider the reasonableness of cost based on the total estimated cost of the service of the professional firm which should include, among other things, all the direct labor costs of the professional firm for such services plus all "allowable indirect costs," other direct costs, and negotiated profit of the professional firm. "Allowable indirect costs" of a professional firm are defined as those costs generally associated with overhead which cannot be specifically identified with a single project or contract and are considered reasonable and allowable under specific state contract or allowability limits.
