PREFACE

Welcome to the University at Albany, Rockefeller College of Public Affairs and Policy and the Undergraduate Program in Public Policy and Management. This Manual is designed to help you learn about the requirements for successful completion of the Bachelor Program and Minor in Public Policy and Management. It provides specific information about course requirements and the structure of the programs in general. It is consistent with – but does not substitute for – the University at Albany Undergraduate Bulletin. Rather, we hope that this manual will complement and clarify the information you receive from other sources. In particular, the rules and regulations in the Bulletin and Program Manual active at the time of your initial matriculation in the program form a mutual agreement between the University and you about degree requirements.

Students are responsible for knowing and acting upon the information contained in the Undergraduate Bulletin. In particular, the rules and regulations contained in the Undergraduate Bulletin and the Program Manual active at the time of a student’s initial matriculation into the program form a mutual agreement between the University, the Rockefeller College, and the student about degree requirements. We suggest that you review this Manual regularly to make sure that you are familiar with and understand all your program requirements. It is wise to save copies of the Bulletin and the Program Manual in force at the time of one’s matriculation into the program.

If you have any questions about the information contained in this Manual or in the Undergraduate Bulletin, you should contact your program academic advisor.

Victor Asal

UAlbany Public Policy & Political Science Study Abroad Options ..............................................32
General
The Department of Public Administration and Policy provides graduate and undergraduate students the skills and insights necessary to participate in the management of public and nonprofit organizations and the creation of public policy. Our curriculum ranges from organizational behavior to information management to homeland security to financial market regulation to non-profit management. Our diverse faculty includes 24 experts drawn from seven fields, plus a set of master practitioners who bring their wealth of experience to the classroom.

Admissions to the BA Program
Students interested in the undergraduate Public Policy and Management program at the Rockefeller College must apply online through using either the Common Application or the State University of New York Application to the University at Albany. For details about the admissions process as a freshman please visit UAlbany’s Undergraduate Admissions page. For details about the admissions process as a transfer please visit UAlbany’s Undergraduate Admissions page.

Undergraduate Office
The undergraduate office also known as Contact office is located on the Uptown Campus of University at Albany – 1400 Washington Avenue, Albany, NY 12222 in Humanities Building, B-16. Dr. Edmund Stazyk, Director of Undergraduate Education is the primary advisor for the Public Policy and Management Program.

Zakhar Berkovich is the Director of Undergraduate Student Services. He is also located in the contact office and he will be glad to see you between Monday thru Friday between 9:00 am and 5:00 pm and by appointment.

The contact office is open Monday thru Friday from 10:00 am until 3:00 pm. You can come by, call or email us with questions or to make an appointment. We can help you with the following:

- Declaring a second major or minor
- provide options regarding changing majors/minors
- Reading DARS audit and registration
- Special permission for courses
- Transfer credit
- Study abroad approval.

For a complete listing of Public Administration and Policy department classes, advisement hours and other information, see http://www.albany.edu/undergraduate_bulletin/department_public_administration_policy.html.
Dr. Edmund Stazyk can be reached at estazyk@albany.edu or 518-442-3112
Zakhar Berkovich can be reached at zberkovich@albany.edu or 518-442-3113
Introduction: Program Overview

The Public Policy & Management Program is a joint major/minor program designed to help intellectually mature and motivated students understand and respond to changes in government and society. Our goal in offering this program is to help you to understand how public problems are defined, and how policies are made and implemented to address those problems.

The making of public policy affects everyone. Policy making involves questions of politics, economics, administration, sociology, psychology, and management. A degree in public policy will help you develop a broad, interdisciplinary understanding of the forces that affect what government does and why.

The curriculum combines a strong academic program with opportunities to develop expertise in a particular policy area. Merging a student-designed concentration with field experience, the combined major and minor in Public Policy assists students through an interdisciplinary approach to develop analytic ability, research skills, and substantive competence in a specific public policy area. Student-selected technical and theoretical courses help develop skills and background desirable to future employers. Communications and analytic skills are stressed throughout the program. The program provides excellent preparation for graduate study, law school, or employment in the public, private or non-profit sectors. Graduates of the Public Policy program have gone on to graduate study, found employment in the state and federal government, and pursued careers in business, law, and management.

The interdisciplinary nature of the program is one of its greatest strengths, and is shared by few such programs at other universities. Most employers and graduate programs look for students with broad preparation across several disciplines—public administration, political science, and economics, to name just a few. Another key feature of our program is the opportunity for you to design, with the assistance of a faculty member, a policy concentration of your choice. This further adds to the breadth of your preparation and will result in your gaining substantive expertise in a particular policy area.

Albany is among the best places in the United States to study public policy and administration. New York State government is among a handful of large, innovative state governments to which other states turn for examples and leadership. Our location in Albany, and our internship requirement, means that you will gain practical experience in policy making that is often unavailable in programs that are not located near the heart of government activity.

ENTRANCE TO THE PROGRAM

You will typically declare the major in Public Policy & Management in your sophomore or junior year. However, it pays to plan ahead, and you are encouraged to contact a faculty advisor as early as possible to begin to plan your program. Requirements for this major can be completed in just two years without prior coursework, provided all university and general education requirements are met.
When you officially enter the program, you will meet with an advisor to design a substantive concentration and to discuss possible internship opportunities. If you enter the program early, and complete the necessary lower-level coursework, you will allow yourself greater flexibility in your junior and senior years as your study area becomes more focused in upper-level courses.

We welcome your interest in the program at any time. We encourage you to speak with or email the program advisor to begin designing your program. Office locations and/or e-mail addresses are available in this document under “Key Public Policy & Management Contacts” directly under the Preface.

**OPPORTUNITIES FOR TRANSFER STUDENTS**

We welcome students who are attending other two and four year colleges. Many students transfer into the program every year. We also welcome transfers from within the University at Albany system. Special advising is available to facilitate all transfer students. Contact the program advisor for details.

**Academic Programs**

**General BA Program**

In addition to fulfilling the University’s general education requirements, the Public Policy program requires successful completion of a set of core courses in American Politics, Economics, Public Administration and Management, and Policy Analysis. The program also allows students a choice of electives that can be selected from the entire array of upper level Public Policy, Political Science and Public Administration offerings. Students may choose a program with or without a concentration. Students who want to choose Public Policy & Management without a concentration must declare a standalone minor.

If student choose to pursue major with a concentration they should work with their program advisor to select a concentration area within the field of Public Policy. The choice may be:

- Environmental Policy
- Gender, Race, and Society
- Human Services: Health, Education and Labor
- Law and Civil Rights
- Local Government
- Philosophy and Ethics
- Politics
- Quantitative Tools
- Regulation and Finance
- Technology and Policy
- Urban Issues
- World Affairs
Note: for information on each course, see the Undergraduate Bulletin, http://www.albany.edu/undergraduate_bulletin/cas.html

In association with the concentration area, students fulfill an internship requirement usually during their junior or senior year. The internship is an integral part of the Public Policy degree. The University’s location in the seat of state government affords students invaluable opportunities for internships directly related to their fields of interest in the legislature, state agencies, private firms and nonprofit agencies. The internship can give students practical experience, useful recommendations, and substantial advantages in graduate admissions and job placement. It is designed to complement the academic work students completed or will complete in their concentration area.

Requirements for the Public Policy and Management Major General Requirements

The BA in Public Policy and Management is focused on the development of the analytic skills needed in today’s complex policy environment. The interdisciplinary nature of the Public Policy and Management program is reflected in the six required core courses that expose students to statistics, economics, the policy-making process and public management. The student then extends and deepens this interdisciplinary perspective through the choice of two courses in each of two areas in Management and Politics and Quantitative Methods & Policy Analysis. In some cases the student may choose to pursue a concentration and through the choice of one or two concentrations.

The BA Program requires that students complete an internship, typically with an agency of New York State government. According to University policy, enrollment in an internship requires a minimum 2.0 GPA. Students with a GPA below 2.0 will not be allowed to complete this requirement for the major.

The BA Program expects that students will have taken mathematics at the level of AMAT 100 or AMAT 101.

Students in the BA program must take a total of 36 credits in the required core courses and in the elective areas. In the rare instance that a student waives out of a core requirement, the student must take an additional course in public administration and policy (RPAD). Students may NOT double-count courses. Any given course may fulfill only one requirement for the major/minor.

Students may choose either a major/minor or a stand-alone major. If a student chooses the major/minor option, in addition to completing the standard 36 credits, a student then must also choose either one or two policy concentrations. The purpose of this requirement is to match the breadth of your interdisciplinary policy analysis skills with depth in a particular area. If a student chooses a stand-alone major they must choose and complete a minor.
Introductory Core Courses (18 credits)
The core courses are specifically designed to introduce the student to the analytic skills associated with the field of Public Policy and Management. All of the following courses are required. Students should aim to take these courses early in their academic careers as they are prerequisite to most of the elective track courses.

- AECO 110: Microeconomics
- AECO 111: Macroeconomics
- RPAD 140: Introduction to Public Policy
- RPAD 302: Understanding Public Organizations
- RPAD 316: Statistics for Policy
- RPOS 101: American Politics

Advanced Core Courses (6 credits)
These core courses build on the skills developed in the introductory core courses. Students must complete all of the Introductory Core Courses before they may take these courses.

- RPAD 498: Applied Public Affairs Capstone
- RPAD 499: Policy Capstone

Elective Areas (12 credits)
The areas are designed to deepen the student’s familiarity with analytic skills used in this field. Courses in Management and Politics explore the design and implementation of policy. Quantitative Methods and Policy Analysis courses study the methods policy experts use to analyze empirical data and to model policy systems.

The student must take two courses in each area. **At least one course in each Area must be at the 300-level or above.** The student may petition the department to substitute appropriate courses not listed here.

Many of these courses are offered irregularly. Furthermore, the department often offers “special topics” courses (RPAD 399) that can count towards a particular Area. See the public policy undergraduate advising office for guidance.

1) Management and Politics
   - EAPS 202: Leadership in Organizations
   - RPAD 236/BFIN 236: Institutions and Policy in Business Regulation
   - RPAD 303: Public Administration and Management
   - RPAD 305: Public Administration and Information Technologies
   - RPAD 312: Motivating Public and Nonprofit Sector Workers
   - RPAD 321: State and Local Government
   - RPAD 322: Government and Politics of New York City
   - RPAD 325: Government and Politics of New York State
   - RPAD 328: Law and Policy
   - RPAD 329: Bureaucratic Politics
   - RPAD/CEHC 344: Emergency Preparedness
   - RPAD 350: Comparative Public Policy
   - RPAD 364/RPOS 366: Approaches to Development
   - RPAD 366: International Environmental Policy
RPAD/BFIN 435: Fundamentals of Securities Law
RPAD 436/BFIN 439: Securities Market Regulation
RPAD 453: Public Health Politics and Policy: Global and Domestic Perspectives
RPAD/CEHC 455: Disaster, Crisis and Emergency Management & Policy
RPAD/CEHC 456: Homeland Security Intelligence
RPAD/CEHC 457: Intelligence Analysis for Homeland Security
RPAD/CEHC 458: Intelligence & U.S. National Security Policymaking
RPAD/CEHC 459: Homeland Security: Building Preparedness Capabilities
RPAD/CEHC 469: Cyber Threats and Intelligence
RPAD/CEHC 471: Military Forces in Support of Civil Authorities
RPAD/CEHC 472: Disasters and Crisis Management in the Public, Private and Nonprofit Sectors
RPAD/RPOS/HHPM 486: International Health and Human Rights: an Interdisciplinary Approach
RPOS 303/RPAD 304: Public Policy in Theory and Practice
RPOS 320: American Federalism

2) Quantitative Methods and Policy Analysis

Students must take AT LEAST ONE course from the Primary List. They may take either 1) two courses from the Primary List or 2) one course from the Primary List and one course from the Secondary List.

Primary List:

- RPAD 204: Computer Modeling for Decision Support
- RPAD 305: Public Administration & Information Technologies
- RPAD 324: Policy Analysis in Complex Systems
- RPAD/CEHC 343: Homeland Security
- RPAD 345: Psychological Economics and Policy
- RPAD 354 or 438: U.S. Health Reform at the Crossroads
- RPAD/CEHC 445: Principles and Practices of Cybersecurity
- RPAD/CEHC 449: Cybersecurity: Long Term Planning and Risk Management
- RPAD 453: Public Health Politics and Policy: Global and Domestic Perspectives
- RPAD/CEHC 457: Intelligence Analysis for Homeland Security
- RPAD 470: Government Information Strategy and Management (GISM): Comparative & International Perspectives
- RPOS 387: Public Spending and Fiscal Policy
- AECO 300: Intermediate Economics
- AECO 320: Economic Statistics
- AECO 355: Public Finance

Secondary List:

- AECO 405: Game Theory
- AECO 410: Mathematics for Economists
- AMAT 214: Calculus of Several Variables
- AMAT 308: Statistical Inference
- AMAT 362: Probability for Statistics
- AGOG 496/AUST 456: Geographic Information Systems
- ICSI 203: Data Processing Principles
Concentrations (18 credits) – Required for 54 credit major

The concentrations allow students to focus in-depth on specific policy applications. Students may do either 18 credits in one concentration or 9 credits in two concentrations. Students are expected to work with the advising office to develop a coherent plan of study across the concentrations.

At least 9 credits must be at the 300-level or above. Students MUST declare their concentrations when they register for the major/minor, but they may change them.

Students may petition for additional courses to be considered under any given concentration, but may NOT petition to create their own concentration.

Courses used to fulfill the Area requirements may NOT also be used to fulfill the Concentrations requirement.

- Environmental Policy*
- Human Services: Health, Education and Labor
- Local Government
- Politics
- Regulation and Finance
- Urban Issues
- Gender, Race, and Society
- Law and Civil Rights
- Philosophy and Ethics
- Quantitative Tools
- Technology and Policy
- World Affairs

* Students must meet the pre-requisites for any courses they take. Note in particular that Environmental Policy and Quantitative Tools include several courses with long chains of pre-requisites.

Requirements for the Public Policy Minor

Students minoring in Public Policy and Management must complete the following five courses:

AECO 110: Microeconomics
RPAD 140: Introduction to Public Policy
RPAD 302: Understanding Public Organizations
RPAD 316: Statistics for Policy
RPOS 101: American Politics

In addition, students must take one 300-level electives in public administration (RPAD).

Students whose major requires AECO 110 or RPOS 101 must substitute an additional elective in Public Administration and Policy. Students who have taken a different 300-level statistics course may waive out of RPAD 316, but must take an additional 300-level elective in Public Administration and Policy.

Getting Into Closed Classes

Generally, when a public policy course closes enrollment, students can join wait lists for a place in the class. We do not allow students to be placed into classes ahead of the waitlist. Priority of seats classes is given to graduating seniors, public policy majors, public policy minors, political science majors and minors.
Handling Grade Disputes or Problems in a Class
If you have a problem in a public policy class (either in grading or otherwise) you should first try to address the problem through discussions with the instructor. If this fails to resolve the issue, you should contact Zakhar Berkovich via email zberkovich@albany.edu. Your issue will be discussed with Director of Undergraduate Studies and we will get back to you with further steps.

Information for Public Policy & Management Majors Who Wish to Study Abroad
We strongly encourage all majors and minors to consider at least one semester abroad (including winter or Summer sessions). You will find list of suggested public policy programs in the on page 30. However, it is important to be careful in choosing which courses to take abroad, and when to schedule a semester abroad. Below are things you should consider:

• Talk to your advisor about course/courses that you are interested in taking while abroad. We will attempt to help you find equivalent course if it pertains to the study of public policy. It is generally helpful if the course has a title or a description that sounds like it is about “public policy” but does not have a PAD designation. In general it will count towards the major or minor but you must receive an approval from an academic advisor.

• Non-UAlbany Program: If studying abroad at a non-UAlbany program, the courses taken will be treated as transfer credit. Students should get approval for courses before going abroad if they wish for them to count towards the major.

Graduate Courses
To register for a graduate class in public policy, undergraduate students must request permission from the instructor of the course and the Coordinator of Graduate Admissions and Graduate Student Services. Students should see Dyana Warnock at the Rockefeller College, email dwarnock@albany.edu
**Internships and Research**

**Maximum Credits**
Students are encouraged to participate in the internship and/or research with public policy faculty. However, up to 3 credits of independent study and internship could be applied to the major in public policy. If student is interested in receiving credit for either or both independent study course and an internship they are required to obtain a special permission as specified below.

**Internships in Public Policy**
Up to 3 (three) credits of internships can be counted toward the major or a minor. To register for an internship you must a major or minor in Public Policy and have 2.0 overall GPA. You must also have completed two of the following courses: RPAD 140, RPAD 316, AECO 110, RPOS 101, and RPAD 302, and have permission of the department internship coordinator. Students must register for RPAD 498. Students should conduct their own research or seek advice from the undergraduate internship coordinator. However, students must have an internship secure before requesting a permission number. The Rockefeller College utilizes Rockefeller Careers software where many posts of internships could be found. The sponsoring firm or organization may or may not provide you a salary/stipend, you are also allowed to reimburse you for personal expenses if the company/firm has such policy. The sponsoring firm or organization must provide a designated supervisor for your activities and that person must indicate to us the hours that you are to work, the tasks you are to perform, and how your performance will be assessed by them. Please request the form from the undergraduate internship coordinator for this purpose. In general the expectation that you will work a minimum of 140 hours at you internship sites. This is roughly 10 hours/week for the duration of the semester.

Applications for internships to be completed during the Fall semester are due no later than September 30. Applications for internships to be completed during the Spring semester are due no later than February 15. Application forms are found at the back of this handbook.
Student Organizations and Clubs

Pi Alpha Alpha, the National Politics Honor Society

The purposes of this society shall be to encourage and recognize outstanding scholarship and accomplishment in public affairs and administration, to promote the advancement of education and practice in the art and science of public affairs and administration, and to foster integrity, professionalism and creative performance in the conduct of governmental and related public service activities. UAlbany’s Pi Alpha Alpha membership is offered to the graduating senior who qualified based on the National Society’s membership requirements. To join, an undergraduate student must:

rank in the upper ten percent (10%) of their graduating class may be inducted provided that:

(a) they have completed 15 semester hours of course work required for the public affairs or public administration major or its equivalent;

(b) they have maintained an average of 3.5 on a scale of 4.0 in all courses included in the major in public affairs and public administration, and at least a 3.0 in all other course work.

(c) they have met the requirements of (a) and (b) above and are in at least the last semester or quarter of their junior year.

Transfer Students exception
Transfer students who meet the qualifications for undergraduate membership may be inducted after they have completed a minimum of one full year of course work in the school or college to which they transfer and in which the chapter is located.

There is a one-time only membership fee of $50 payable (check, no cash accepted) to the national organization. Please see the web site at http://pialphaalpha.org/national-constitution/ for more information.

Rockefeller College Dean’s Leadership Council

The purpose of the Rockefeller College Dean’s Leadership Council is to bring together College leadership and active and interested students in Public Policy and Political Science to participate in a council that advises Rockefeller College on matters of College and University policy. The RCDLC meets at least once a semester with the Dean College for the purpose of consultation. The agenda of these meetings will be established by the elected leadership of the RCDLC and the Rockefeller College Dean. In addition, the RCDLC will be encouraged to participate in the planning of college-wide events and cooperate with other student groups to foster community. The group will be invited to participate in Alumni events and called upon to assist the College as student ambassadors.
The Public Policy and Management Honors Program

The Honors Program in Public Policy and Management combines recognition of general academic excellence with demonstrated achievement in specific area of public policy.

Administration
The Director of the Undergraduate Public Policy and Management Program administers the Honors Program, advises students, and helps students in selecting thesis advisers. The thesis is discussed in a forum involving the adviser, the Honors Director, and other faculty members selected by the student and the adviser upon its completion in the senior year.

Selection and Evaluation
Student must have declared Public Policy and Management as a major and have completed at least 12 credits of coursework in the major. Student must have an overall grade point average not lower than 3.25, and a grade point average of 3.50 in the core subjects in public policy and management for admission to the Honors Program. Students may apply to the Honors Program during their sophomore year or during the first semester of their junior year.

Upon satisfactory completion of the honors curriculum and of courses required of all majors, students will be recommended by the Director of Public Policy and Management to graduate with honors in Public Policy and Management. Students must maintain at least the same grade point average overall and the same average in the major as were required for admission to the Honors Program to graduate with honors.

Requirements
The Honors Program in Public Policy and Management is a combined major and minor program requiring a minimum of 54 credits, including the completion of an honors thesis.
Coursework: students in the honors program must complete the same coursework requirements as specified for the non-honors major.

Thesis: each student must complete a 30 to 40 page honors thesis. This paper should involve original research on a topic related to public policy. It should have a clearly defined thesis statement, a review of the existing literature on the chosen topic, original evidence offered to support the thesis, consideration of alternative rival hypothesis, and a conclusion of the consequence for public policy research of these findings. The paper is to be created in conjunction with a faculty mentor approved by the Director of the Undergraduate Public Policy and Management program (and the paper may be co-authored with the chosen faculty mentor). The paper is to be submitted to the Director of the Undergraduate Public Policy and Management program.

Completion of the thesis requires enrolling in two research courses, R PAD 494 and R PAD 496, in which the student works one-on-one with a faculty advisor to conduct the required research and write the thesis. R PAD 494 may be counted towards the Area of Management and Politics, and R PAD 496 may be counted towards the Area of Quantitative Methods and Policy Analysis.
Students are encouraged to identify their thesis question and advisor before the end of their junior year.

**Combined Bachelor/Master Programs**

Students majoring in Public Policy and Management may be eligible to apply for the combined B.A./M.P.A. program. This program provides an opportunity for students of recognized academic ability and educational maturity to earn both a B.A. and the graduate M.P.A. degree within 11 semesters.

The combined program requires a minimum of 156 credits, of which at least 48 must be graduate credits. In qualifying for the B.A., students must meet all University and school requirements, including the requirements of the major described previously, the minimum 90 credit liberal arts and sciences requirement, general education requirements, and residency requirements. In qualifying for the M.P.A., students must meet all University and school requirements as outlined in the Graduate Bulletin, including completion of approximately 49 graduate credits and any other conditions such as a professional experience requirement. Up to 12 graduate credits may be applied simultaneously to both the B.A. and M.P.A. programs.

Students may apply to the combined degree program at the end of their junior year. A cumulative grade point average of 3.20 or higher, completion of 56 credits toward towards the B.A., and three letters of recommendation from faculty are required for consideration. Evidence of ability in quantitative coursework, particularly in statistics and economics, is required for admission to the B.A./M.P.A program.
List of Approved Concentration Courses.

This is not an exhaustive list of courses. Students may find additional course that could relate to the concentration. Students must get approval from their academic advisor prior to adding them to the concentration. Students are encouraged to review the topics courses in various disciplines. The course numbers are listed after the concentrations.

1. Environmental Policy
   - AANT 211: Human Population Biology
   - AATM 100: The Atmosphere
   - AATM 101: The Upper Atmosphere
   - AATM 102: Science and Major Environmental Issues
   - AATM 103: Introduction to Climate Change
   - AATM 107: The Oceans
   - AATM 200: Natural Disasters
   - AATM 304: Air Quality
   - ABIO 130: General Biology: Molecular and Cell Biology I
   - ABIO 131: General Biology: Ecology and Physiology
   - ABIO 205: Human Genetics
   - ABIO 212Y: Introductory Genetics
   - ABIO 330: Principles Ecology and Evolution
   - ABIO 401: Ecology
   - AECO 385: Environmental Economics
   - AENV 105: Introduction to Environmental Sciences
   - AENV 250: Sustainable Development
   - AGEO 221: Understanding the Earth
   - AGOG 101: Introduction to the Physical Environment
   - AGOG 201: Environmental Analysis
   - AGOG 304: Climatology
   - AGOG/AUPS 430: Environmental Planning
   - AGOG/AUSP 460: People, Place, and Power
   - AHIS 329: American Environmental History
   - APHY 105: General Physics I
   - APHY 140: Physics I
   - APHY 202: Environmental Physics
   - ASOC 320: Population Challenges
   - AUSP 201: Introductory Urban Planning
   - AUSP 432: Park and Greenway Planning
   - AUSP 456: Geographic Information Systems
   - AUSP 457: Advanced GIS
   - AUSP 460: People, Place, and Power
   - HSPH 321: Global Environmental
   - RPAD 366: International Environmental Policy
   - RPAD/CEHC 459: Homeland Security: Building Preparedness Capabilities
2. **Gender, Race, and Society**

AAFS 213: History of Civil Rights Movement  
AAFS 220: Black and White in America  
AAFS 240: Classism, Racism, and Sexism: Issues  
AAFS 311: History of Slavery in the Western Hemisphere  
AAFS 333: The Black Community: Continuity and Change

RPOS 204 – Selected Problems in Political Science
RPOS 399 – Selected Topics
This form is to be completed by each undergraduate Public Policy and Management major fulfilling the requirement for the substantive policy area concentration. In consultation with the program advisor and/or faculty advisor, students will develop a substantive public policy or methodological concentration composed of a minimum of 18 credits. The concentrations allow students to focus in-depth on specific policy applications. Students may do either 18 credits in one concentration or 9 credits in two concentrations. Students are expected to work with the advising office to develop a coherent plan of study across the concentrations. At least 9 credits must be at the 300-level or above. Students MUST declare their concentrations when they register for the major/minor, but they may change them. Students may petition for additional courses to be considered under any given concentration, but may NOT petition to create their own concentration. Courses used to fulfill the Area requirements may NOT also be used to fulfill the Concentrations requirement.

Name: ___________________________________ Student Identification #: 00___________

Concentration(s)
☐ Environmental Policy
☐ Human Services: Health, Education and Labor
☐ Local Government
☐ Politics

Thesis: each student must complete a 30 to 40 page honors thesis. This paper should involve original research on a topic related to public policy. It should have a clearly defined thesis statement, a review of the existing literature on the chosen topic, original evidence offered to support the thesis, consideration of alternative rival hypothesis, and a conclusion of the consequence for public policy research of these findings. The paper is to be created in conjunction with a faculty mentor approved by the Director of the Undergraduate Public Policy and Management program (and the paper may be co-authored with the chosen faculty mentor). The paper is to be submitted to the Director of the Undergraduate Public Policy and Management program.

UAlbany Public Policy & Political Science Study Abroad Options

ARGENTINA: Buenos Aires – Universidad del Salvador (advanced level Spanish required)
Universidad del Salvador operates on a tradition of academic excellence offering coursework to international students with a high level of Spanish language fluency. Immersion into regular classes with degree seeking students will allow international students to improve their knowledge and understanding of local and regional affairs, to concentrating on Latin American arts, culture, history, politics, Spanish business, and literature.

DENMARK: Copenhagen, Danish Institute for Study Abroad (DIS)
The Danish Institute for Study Abroad (DIS) is a specialized institution of higher education in the heart of Copenhagen specializing in European Studies and emerging states in Eastern Europe. DIS offers a number of unique political science and public policy courses. Leave the beaten track and discover a European destination you might not be able to on your own through the DIScovery programs.

GERMANY: Würzburg – University of Würzburg
The Julius-Maximilian Universität (Würzburg University) was founded 400 years ago, home to a UNESCO heritage site, and boasts many Nobel Laureate recipients as former students. Coursework at Würzburg is concentrated specifically on German history, politics, culture, and literature through the Würzburg English Language Program titled Intercultural Studies: Inside Germany.

GLOBAL SERVICE CORPS: Various Locations
Global Service Corps (GSC): Students choose from among various semester-length service learning internships within the rewarding, inter-disciplinary field of international development, whether in Cambodia (multiple locations) or Tanzania (Arusha and Maasailand). In both nations, volunteers are coordinated to serve in (1) HIV/AIDS Prevention Education and a wide variety of other (2) International Health Programs. Cambodia’s other programs include (3) Buddhist Immersion, (4) Teach English Abroad, and (5) Orphanage Care. Tanzania offers (6) Sustainable Agriculture and Food Security, and (7) Community Development.

IRELAND: Galway – National University of Ireland, Galway
Ideally located in the university city of Galway, the University offers a welcoming academic community. The School of Political Science & Sociology is dynamic, innovative and internationally recognized for its research, teaching and service to its students and to wider communities. In particular, the School has a well established reputation for research on Power, Conflict and Ideologies; Gender, Empowerment and Globalization and Governance and Sustainable Development. It brings together an international, cross-disciplinary group of 40 academic staff members with diverse backgrounds in politics and sociology.

ISREAL:
Jerusalem, The Hebrew University of Jerusalem
Hebrew University offers the following program specifically for students interested in Middle Eastern politics: Dynamics of the Middle East: Politics and Society (D.O.M.E.) provides an
interdisciplinary approach to this exciting field. Course choices in the semester are offered in the areas of political science, international relations, history, sociology, religious studies and languages.

**Tel Aviv, Tel Aviv University**
Study abroad at TAU is a transformative experience in the perfect city for international students in the cultural and economic heart of Israel. A full program of trips and cultural events will give you the chance to explore all Israel has to offer, from the Galilee to the Negev and the Dead Sea to the Mediterranean. The curriculum at TAU includes International Relations, Middle Eastern Studies, Jewish Studies, and more!

**KOREA: Seoul – Yonsei University**
Our exchange affiliation with Yonsei University enables students to study in the heart of Seoul, South Korea and is intended for U.S. students interested in experiencing Korean daily life and culture while developing Korean language skills. Courses generally focus on these themes: East Asian Studies, International Relations, International Business, and Korean Language.

**RUSSIA: Moscow – Lomonosov Moscow State University**
The University at Albany's exchange affiliation with Moscow State University enables students to take Russian language courses as well as some Russian Studies courses taught in English. This study abroad option is intended for students who are interested in developing their Russian language skills and in pursuing in-depth study of subjects related to Russia.

**TAIWAN: Taipei – National Taiwan University** *(fluent Chinese required if taking regular university courses taught in Chinese)*
The University at Albany's exchange affiliation with National Taiwan University allows students to study Chinese language and take courses in a variety of Asian Studies related fields that are taught in English including Exploring Taiwan: Culture and Society, China’s Economic Development, and Taiwan Strait Relations. This study abroad option is intended for students who are interested in developing Chinese language skills and in pursuing in-depth study of subjects related to Taiwan.

**TURKEY: Istanbul – Bahcesehir University**
İstanbul, which is famous for its extensive history and rich multicultural background, is a perfect place to study and live for today’s University student. Students have the opportunity to complete internships at various companies, NGOs and humanitarian organizations as well as to complete a Turkish Language and Culture course. Istanbul’s transcontinental location at the crossroads of Europe and Asia offers a perfect opportunity for students to learn from a variety of cultures and perspectives to develop new interests, grow and evolve as human beings, and embark on a
journey of self-discovery. Studying in Istanbul gives a new meaning to the maxim “best of both worlds”.

**UNITED KINGDOM: Nottingham – University of Nottingham**
The University of Nottingham is located in a vibrant city in the heart of the UK, with fast access to many of the country's major cities allowing for true immersion and access to British life. Being one of the UK's most popular universities, and often ranked within the UK's top ten, the University of Nottingham is a competitive school for serious students. At the forefront of teaching and research, Nottingham has one of the largest schools of Politics and International Relations in the UK.

For more information on each of these options, please visit: www.albany.edu/studyabroad
