Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

We prefer to have graduate students take their required courses in our department. Occasionally we will grant credit for graduate courses taken in other departments. Students must have an excellent grade from the course on their transcript. They can then submit the syllabus and written work from the course, which will be reviewed by the professor who teaches the course in our department, the Director of Clinical Training, and one other faculty member.
