CURRENT RESEARCH SUPPORT

Title:	<u>Modeling HIV, viral hepatitis, STI, and TB to improve public health – CAMP 2.0: The coalition for applied modeling for prevention</u>
Agency:	Centers for Disease Control and Prevention
PI:	Rosenberg
Role:	Investigator
Amount:	\$9,844,722

Date: 9/30/2019-9/29/2024

Funding supports the development of models of the economic and epidemiologic burden of HIV, viral hepatitis, STIs, and tuberculosis in priority populations, understand the impact of policies, and inform the allocation of program resources.

Title: Identifying and disseminating substance, treatment, strategy (STS) recommendations to AIDS service organizations

Agency: National Institute on Drug Abuse

PI: Garner

Role: Investigator

Amount: \$125,360 (5-year University at Albany subcontract; total award: \$675,000 annual)

Date: 7/1/2018-6/30/2023

Funding supports the development of stakeholder-driven Substance-Treatment-Strategy recommendations for improving substance use disorder integration within HIV/AIDS settings, and testing the incremental effectiveness of external facilitation to AIDS service organizations.

Title: Independent evaluation of the New York State Delivery System Reform Incentive Payment (DSRIP) program

Agency: New York State Department of Health

PI: Weller

Role: Director of Time Series and Comparative Analysis

Amount: \$3,917,500

Date: 10/1/2016—9/30/2021

Funding supports an independent evaluation of the DSRIP Medicaid waiver, the main mechanism by which New York is implementing the Medicaid Redesign Team Waiver Amendment that restructures the healthcare delivery system to reduce avoidable hospital use.

COMPLETED EXTERNAL RESEARCH SUPPORT

Title: Describing New York's policy response to counteract the opioid overdose epidemic

Agency: New York State Department of Health (Contract # NU62PS003692-05-09)

PI: Martin

Amount: \$49,809

Date: 5/1/2017-12/31/2017

This project uses key informant interviews to understand comprehensive programming for opioid overdose, implementation strategies, collaborations across agencies, and process outcomes.

Title: Modeling the end of AIDS in New York State

Agency: New York State Department of Health (Contract # C030792)

PI: Martin

Amount: \$200,000

Date: 12/1/2015-5/31/2017

This project uses mathematical modeling to simulate how the Ending the (AIDS) Epidemic policy initiative will affect HIV transmission and HIV testing and care outcomes in New York State.

Title: Documenting patterns of HIV prevention funding to states
Agency: New York State Department of Health (Contract #5U52PS00369205)
PI: Martin
Amount: \$28,069
Date: 1/1/2016-12/31/2016
This project develops a holistic understanding of the Centers for Disease Control and Prevention's domestic HIV prevention funding portfolio and 2015 allocations to states and metropolitan areas.

Title: A scan of the status of states' integration of human services and health insurance programs
Agency: Office of the Assistant Secretary for Planning and Evaluation (Grant# HHSP2332015000771)
PI: MEF Associates
Role: Investigator, Rockefeller Institute of Government subcontract PI
Amount: \$14,928
Date: 9/1/2015-8/1/2016
This project surveys the current status of state human service program agencies' efforts to integrate affordable health insurance and human services programs as encouraged under the Affordable Care Act.

Title: Substance abuse treatment to HIV care (SAT2HIV)
Agency: National Institute on Drug Abuse
PI: Garner
Role: Consultant
Amount: Daily rate
Date: 7/1/2014—7/30/2019
This project tests the effectiveness of: 1) a single-session motivational interviewing-based brief intervention for comorbid substance use within HIV service settings, and 2) an organizational-level implementation strategy to facilitate its implementation and sustainment within these settings.

Title: Surveying drug user health and service access at Upstate New York syringe exchange programs
Agency: New York State Department of Health (Grant# 5U62PS00369204)
PI: Martin
Amount: \$18,561
Date: 1/15/2015—12/31/2015
This project surveys five Upstate New York syringe exchange programs to learn about drug user health, experience and satisfaction with the syringe exchange site, overdose experience, use of medical services, overdose experience, and knowledge of New York's Good Samaritan Law.

Title: Building a sustainable open data ecosystem for public health services and systems research

Agency: Robert Wood Johnson Foundation (Grant #71597)

Co-PIs: Birkhead, Martin

Amount: \$99,945

Date: 1/15/2014— 1/15/2016

This mentored scientist career development award project aims to facilitate the release of open data that are fit for research by: systematically reviewing the usability of open health datasets, interviewing agency staff to assess their capabilities to release data and the perceived value of releasing data, and complete a pilot data linkage project.

Title: Medicaid F-SHRP waiver evaluation

Agency: New York State Department of Health (Contract # C002207)

Co-PIs: Boyd, Martin

Amount: \$754,174

Date: 2/2/2014— 5/15/2015

This project evaluates the Federal-State Health Reform Partnership (F-SHRP) waiver demonstration project, following the evaluation plan design prepared by the NYSDOH and approved by the Centers for Medicare and Medicaid Services (CMS).

Title: Optimizing the use of HIV/STD partner services strategies in New York State

Agency: Robert Wood Johnson Foundation (Grant # 21989)

Co-PIs: Martin, Tesoriero

Amount: \$149,992

Date: 7/15/2013— 6/14/2015

This project quantifies statewide variations in the costs and staffing effort of delivering standard HIV/STD partner services and high-impact HIV partner services, and makes recommendations on the conditions under which reallocating staff resources will lead to efficiency gains.

Title: Support the health policy research center to build capacity as a connector between academic researchers and state and local governments in New York

Agency: New York State Health Foundation (Grant #11-0018)

PI: Martin

Amount: \$29,628

Date: 5/1/2013— 2/28/2014

Funds were used to promote applied health policy research in New York by developing a database of academic researchers and hosting a one-day conference for academics, practitioners, and policymakers on important health policy issues confronting the state.

Title: A system dynamics-based evaluation of the economic impacts of the mandatory offer of HIV testing in New York State

Agency: New York State Department of Health (Contract #4262-01)

PI: Martin

Amount: \$252,882

Date: 7/1/2011— 12/31/2012

This project used system dynamics modeling to evaluate a recent state law that requires that all

persons between the ages of 13 and 64 be offered HIV testing as part of hospital inpatient, emergency room, or any facility or community based primary care services.

Title: Evaluating the link between HIV prevention and treatment
Agency: National Institute of Mental Health (2R01 MH65869-08)
PI: Paltiel
Role: Investigator
Amount: \$91,774 (University at Albany subcontract; total award \$2,539,167)
Date: 9/1/2009—12/31/2010

This project used a computer-based evaluation model of disease progression, clinical management, and economics of HIV to promote an evidence-based approach to HIV counseling, testing, and referral.

COMPLETED INTERNAL RESEARCH SUPPORT

Title: Media attention to disease
Agency: Rockefeller College Research Incentive Fund
Co-PIs: Martin, Strach
Amount: \$2,000; \$8,452
Date: 11/1/2010—6/31/2012

Funding supported data collection and content coding for a sample of news articles to assess differential coverage of medical issues across news sources and disease areas.

Title: The impact of state vaccination policy: disease incidence and vaccination coverage
Agency: Rockefeller College Research Incentive Fund
Co-PIs: Fossett, Martin
Amount: \$2,950
Date: 6/1/2010—10/1/2011

Funding supported the development of a typology of state vaccination requirements and exemptions through a legal analysis of state laws, regulations, and court decisions.

Title: Exploring interstate variation in vaccine policies and coverage
Agency: Rockefeller College Research Incentive Fund
PI: Martin
Amount: \$2,095
Date: 2/1/2010—2/28/2010

Funding supported the purchase of a statistical software package needed to analyze survey data.
