GRANT SUPPORT

ACTIVE

Title: Increasing Uptake and Acceptance of COVID-19 Vaccination through Behavioral Nudges, Prebunking, and Bundling Strategies in Senegal to Public Health Guidance

Agency: Social Science Research Council(Mercury):

PIs: Ashley Fox, Natasha Prudent Malmin, Moustapha Seye, Amira Jadoon

Role: Co-PI

Amount: \$350,000

This study aims to examine the effect of bundling COVID-19 vaccination for adults with routine childhood immunization visits employing opt-in and opt-out approaches and randomizing supportive messages in 4 regions of Senegal. The study will also examine parental acceptance of novel malaria vaccination for their children.

Title: Evaluating Pandemic-Era Medicaid Postpartum Coverage Extensions through an Equity Lens

Agency: NIH (NIMHD)

Status: Pending

Award #: MD018180

PIs: Teresa Janevic; Ellerie Weber

Role: Co-I

Dates: 12/1/2022-11/30/2027

Amount: \$4,121,825

The major goals of this project are to evaluate the impacts of postpartum Medicaid policy on maternal health equity using an adaptive concurrent mixed-methods approach.

Title: Extending postpartum coverage to Medicaid enrollees: those eligible and those left behind

Agency: Robert Wood Johnson Foundation

Award #: RWJF project 21-1935-00001-01-PD

PI: Teresa Janevic (PI); Ellerie Weber (co-I); Ashley Fox (co-I)

Effort: 3 calendar months

Amount: \$300,000

Dates: 6/1/2022- 5/31/2024

This study uses a mixed methods approach to examine the effects of the de facto post-partum Medicaid extensions during the public health emergency on pregnant women’s continuity of coverage and health

care utilization, including equity effects (whether racial disparities in access to care decreased and immigration based disparities increased).

Title: Safer at Home? School Reopening Policies and Deepening Disparities in Adverse Childhood Events in Light of COVID-19
Agency: UAlbany Seed Grant, Health Disparities Research
Award #: RF Project Task Award: 1162929
PI: Ashley Fox (PI); Kristin Wilcox(Co-I); Janine Jurkowski (Co-I); Lucy Sorensen (Co-I)
Amount: \$8,000
Dates: 11/1/2021- 6/30/2022

This mixed methods study aims to examine how differential school reopening plans have affected student and caregiver well-being, including among low-income and minoritized communities in NYS, and whether these differential re-opening decisions have exacerbated disparities in ACEs.

Title: Improving COVID-19 vaccine uptake in Pakistan
Agency: International Growth Center
Award #: PAK-22069
PI: Hina Khalid (PI); Ali Akram (co-I); Ashley Fox (co-I)
Amount: £20,000
Dates: 02/15/2022 – 07/31/2023

This study aims to test whether offering people COVID-19 booster on spot in a hospital setting increases booster uptake and how different messaging strategies affect willingness to vaccinate.

Title: Survey on Vaccine Intention, Health-protective Behaviors, and Public Trust in Government in South Korea in the COVID-19 Pandemic
Agency: Academy of Korean Studies
Award #: AKS-2022-R124
PI: Ashley Fox (PI), Yongjin Choi (co-Investigator)
Amount: \$21,000
Dates: 02/01/2022-01/31/2023

The purpose of this project is to investigate COVID-19 pandemic-related behaviors among the Korean public to facilitate COVID-19 research in South Korea through an online survey of the general public.

COMPLETED

Title: Left Behind: Immigrant Medicaid policy exclusion and maternal and infant health
Agency: Russell Sage Foundation
Award #: RSF project R-1908-17721
PI: Teresa Janevic (PI); Ashley Fox (co-I); Ellerie Weber (co-I)
Effort: 2 calendar months
Amount: \$50,000
Dates: 6/1/2020- 5/31/2021

This study uses a mixed methods approach to identify policy changes across states in Medicaid access for citizen's versus non-citizens to identify changes in access to maternal health services and impacts on health status between these groups over time.

Title: Immigrant Medicaid policy and maternal and infant health

Agency: HRSA
Award #: Grant Number R40MC37530
PI: Teresa Janevic (PI); Ashley Fox (co-PI); Ellerie Weber (co-I)
Effort: 1 calendar month
Amount: \$100,000
Dates: 7/1/2020- 6/30/2021

This study uses a quantitative approach to examine whether immigrant exclusion from Medicaid expansions have harmed immigrant birth outcomes relative to native-born mothers.

Title: Public Trust and the Politics of Pakistan's COVID-19 Vaccination Program
Agency: EGAP (Evidence in Governance and Politics)
PIs: Hina Khalid (PI); Ali Akram (co-I); Amira Jadoon (co-I); Chad Stecher (co-I); Ashley Fox (co-I)
Amount: \$10,000
Dates: 3/1/2021- 3/31/2022

This research will conduct a behavioral experiment aimed at encouraging COVID-19 vaccine uptake and will collect qualitative and quantitative information about sources of vaccine hesitancy among low-income households in Lahore, Pakistan.

Title: COVID-19 and slum communities in Pakistan: assessing the health and economic impacts
Agency: WHO/EMRO
Award #: No. RPPH 20-118
PI: Hina Khalid (PI); Izza Aftab (co-I); Ashley Fox (co-I)
Amount: \$15,000
Dates: 9/1/2020- 5/31/2021

This research will conduct a household survey in slum communities in Pakistan to assess the impact of Coronavirus-induced economic downturns on household economic security, food security, and overall health/well-being.

Title: The Effect of State Medicaid Generosity on Morbidity and Mortality of People Living with Cystic Fibrosis
Agency: Cystic Fibrosis Foundation
Award #: 87805
PIs: Ashley Fox
Effort: 1 calendar month
Amount: \$13,728
Dates: 07/01/2020 - 12/31/2021

This research examined whether state Medicaid policies affect outcomes among patients with Cystic Fibrosis.

Title: Framing Single-Payer: Comparing rational-weigher, inoculation and altruistic approaches to presenting evidence on Medicare-for-All health reform proposals
Agency: University at Albany, FRAP B
Mechanism: Internal University Grant
PIs: Ashley Fox
Amount: \$4,000

Dates: 5/2019-4/2020

This research uses a survey experiment to examine whether the priming people about the harms of losing employer-sponsored health coverage during a pandemic affects their support for moving towards a single-payer health care system.

Title: Variations in state welfare generosity and preterm birth in the US: Can it explain our low international infant mortality rankings?

Agency: Robert Wood Johnson Foundation

Mechanism: Public Health Law

PI: Ashley Fox (Mount Sinai)

Effort: 5.4 calendar months

Amount: \$150,000

Dates: 9/2014-5/2016

This study aims to explain the wide variation in state preterm birth rates and the US's poor international rankings on infant mortality with reference to variations in state welfare generosity (the various laws establishing eligibility, enrollment and value of benefits for welfare programs). Specifically, the study will examine the contribution of variations in the generosity of five major welfare programs on state preterm birth outcomes: unemployment insurance, income support (AFDC/TANF), food assistance (SNAP & WIC) and Medicaid.

Title: A rights-based approach to health: Success case in implementation strategies to reduce spread of HIV in Iran

Agency: World Health Organization

Mechanism: Human rights, health policy-making and programming

PIs: Ashley Fox, Kamiar Alaei

Effort: 1 calendar month

Amount: \$5,000

Dates: 9/2015-9/2016

This study analyzes the factors that enabled the development and successful implementation of a rights-based, harm reduction approach to HIV treatment and prevention in Iran. The project explores the origins of the Triangular Clinic approach, its successful implementation in politically and socially conservative context and the factors influencing the dissemination of this model to similar settings.

Title: Who gets Water and Sanitation, Where, When and How? Fractionalization, Discrimination and Public Service Provision

Agency: University at Albany, FRAP B

Mechanism: Internal University Grant

PIs: Ashley Fox, Victor Asal

Amount: \$4,000

Dates: 5/2014-4/2016

This research examines whether countries with a high degree of ethno-religious fractionalization have lower coverage of improved water and sanitation services and will explore potential mechanisms for explaining relationships if found.

Title: Risk and Reciprocity: Investigating the "Sugar-Daddy" Phenomena among College Students in Northern Mozambique

Agency: University at Albany, Center for Social and Demographic Analysis SEED Grant
Mechanism: Internal University Grant
PIs: Ashley Fox
Amount: \$10,000
Dates: 9/2015-5/2016

This research will collect open and close ended survey data on student's sexual networks, perceptions of HIV risk, reasons for engaging in risky relationships and assessments of the adequacy of HIV prevention efforts in the area and triangulate this with information on local prevention campaigns and government messaging around HIV/AIDS.

Title: Medicaid F-SHRP waiver evaluation
Agency: New York State Department of Health (Contract # C002207)
Co-PIs: Boyd & Martin Amount: \$754,174
Role: Investigator
Dates: 2/2/2014— 5/15/2015

The Federal-State Health Reform Partnership (F-SHRP) Demonstration provided federal financial support for New York to modernize its acute and long-term care infrastructure, increase capacity in primary and ambulatory care, and make investments in health information technology. We intend to evaluate the Demonstration's effectiveness in accordance with the evaluation plan design prepared by the NYSDOH and approved by the Centers for Medicare and Medicaid Services (CMS).

Title: Disseminating Effective Community-Led Programs to Eliminate Diabetes Disparities
Agency: NIMHD
PI: Carol Horowitz (Mount Sinai)
Role: Co-Principal Investigator
Effort: 3 calendar months
Amount: \$399,295
Dates: 3/1/2013-2/29/16

This study aims to evaluate the dissemination of a community-based Diabetes Prevention Program targeting uninsured overweight and obese prediabetic adults through a network of community-based organizations in East Harlem.

Title: Communities IMPACT Diabetes
Agency: Centers for Disease Control and Prevention (CDC)
PI: Carol Horowitz (Mount Sinai)
Role: Investigator, Director of Evaluation
Effort: 3.5 Calendar Months
Amount: \$668,319
Dates: 09/30/07-08/31/13

Funding to develop sustainable, community-based diabetes prevention programming in East Harlem, NY.

Title: Northern Manhattan Initiative for Minority Involvement in Clinical Trials
Agency: NINDS/NIMHD
Mechanism: U24 MD006961-01
PI: Bernadette Boden-Albala (Mount Sinai)
Role: Co-Investigator

Effort: 0.6 calendar months
Amount: \$453,024
Dates: 09/22/2011 – 06/30/2016

This study uses novel innovative methodology to identify and provide strategies for optimal enrollment of minority populations in neurological trials and studies. This includes the completion of a global recruitment toolkit for neurological researchers.

Title: Overcoming Barriers to Effective Care for Minorities, Center for Achieving and Sustaining Improved Health in Harlem

Agency: NIMHD
Mechanism: 5P60 MD000270
PI: Nina Bickel (Mount Sinai)
Role: Investigator
Effort: 0.36 calendar Months
Amount: \$554,201
Dates: 9/11/07- 4/30/13

The main goal of this center grant is to integrate a coordinated series of research activities using self-management skills for patients with vital community outreach and training efforts which will enhance the minority health services research infrastructure in our community.

Title: Help Educate to Eliminate Diabetes (HEED)

Agency: NIMHD
Mechanism: R24 MD001691
PI: Carol Horowitz (Mount Sinai)
Role: Investigator
Effort: 2.4 Calendar Months
Amount: \$413,273
Dates: 07/01/08-08/31/13

This study is a weight loss intervention trial for overweight and obese prediabetic adults and adults with normal sugars.
