Note: Administrative facilities are institutions with special missions, such as the detention of pretrial offenders, the treatment of prisoners with serious or chronic medical problems, or the containment of extremely dangerous, violent, or escape-prone prisoners. Administrative facilities are capable of holding prisoners in all security categories.

^aThese minimum security satellite camps are adjacent to the main facility. A blank indicates no camp facility. Except where noted, the sex of prisoners housed in the camp and main facility is the same.

^bA number of institutions are components of Federal Correctional Complexes (FCCs). At FCCs, institutions with different missions and security levels are located in close proximity to one another. For FCCs, the Source provided the total number of staff for the entire complex with no breakdown by institution. The number of staff at each FCC is as follows: Beaumont, 858; Butner, 959; Coleman, 1,177; Florence, 885; Lompoc, 559; Oakdale, 485; Petersburg, 536; Terra Haute, 644; and Victorville, 826.

^cThis facility operates a Special Confinement Unit for prisoners under Federal death sentence.

^dThe adjacent camp is a minimum security facility for females.

^eThis facility houses low security females and administrative security males.

^fFigure includes prisoners housed in a low security satellite facility adjacent to or affiliated with the main institution.

^gIncluded with low security facility at same location.

^hLocated on the New Mexico-Texas border.

ⁱThis facility houses medium security males and administrative security males and females.
