Note: The U.S. Department of Justice, Bureau of Justice Assistance (BJA), through the Edward Byrne Memorial State and Local Law Enforcement Assistance Program, provides funds to State and local jurisdictions for the purposes of crime prevention and control, and improving criminal justice systems. Emphasis is placed on violent and drug-related crime, serious offenders, and the enforcement of State and local laws that establish offenses similar to those in the Federal Controlled Substances Act. Grants may provide support for personnel, equipment, training, technical assistance, and information systems for more widespread apprehension, prosecution, adjudication, detention, and rehabilitation of persons who violate such laws, and assistance to the victims of such crimes (other than compensation).

BJA makes program funds available through two types of grant programs: discretionary and formula. Discretionary funds are awarded directly to public and private agencies and private nonprofit organizations; formula funds are awarded to the States, which then make subawards to State and local units of government as well as to agencies and organizations. The above data reflect awards under the formula grant program and the minimum percentage that is required to be passed to local jurisdictions. (Source, 2002, pp. 1, 3.) The exceptions are Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Marianas; in these jurisdictions Byrne formula awards are retained and managed at the "State" level.
