Note: These data were collected from government documents and from the annual surveys of government finances and employment conducted by the U.S. Census Bureau. Justice data are extracted from these sources by the Census Bureau for the U.S. Department of Justice, Bureau of Justice Statistics. The Federal Government, all State governments, and a sample of county, municipal, and township governments were included in the surveys. Since not all local governments were included in the surveys, these data are subject to sampling variation. Duplicative transactions between levels of government are excluded from the total for all governments, the State and local total, and the local total. Such intergovernmental expenditure consists of payments from one government to another and eventually will show up as a direct expenditure of a recipient government. Some data have been revised by the Source and may differ from previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see [Appendix 1](#).

<sup>c</sup>Includes payrolls of States and all types of local governments including independent school districts and special districts, which are not displayed separately. The "local, total" categories, which include these districts, will not equal the sum of the "counties" and "municipalities" categories.

<sup>d</sup>Justice system payrolls of independent school districts and special districts (primarily for special police forces) are not available.

<sup>e</sup>Less than 0.05%.

<sup>a</sup>March payroll data may not sum to total because of rounding.

<sup>b</sup>Data for local governments are estimates subject to sampling variation.
