Note: These data are from the National Judicial Reporting Program (NJRP), a biennial survey of State felony courts. Data were collected for the U.S. Department of Justice, Bureau of Justice Statistics by the U.S. Census Bureau. The 2006 NJRP survey was based on a sample of 300 counties selected to be nationally representative. The sample included at least one county from every State except, by chance, Nevada, South Dakota, and Wyoming. Only offenses that State penal codes define as felonies are included. Excluded are Federal courts and State or local courts that did not adjudicate adult felony cases. Additional penalties are penalties imposed by the court in addition to the primary penalty of jail, prison, or probation. Where the data indicated affirmatively that a particular additional penalty was imposed, the case was coded accordingly. Where the data did not indicate affirmatively or negatively, the case was treated as not having an additional penalty. These procedures provide a conservative estimate of the prevalence of additional penalties. Persons receiving more than one type of additional penalty appear under more than one penalty heading. These data are estimates derived from a sample and therefore are subject to sampling variation. For survey sampling procedures and definitions of terms, see [Appendix 16](#).
