**2021 Greenwald Research Fund Recipients**

**Saad Ahmad** *Morphology Changes in Hippocampal Astrocytes during Circadian Rhythms*
Faculty Advisor: Annalisa Scimemi, College of Arts and Sciences, Department of Biological Sciences

**Darnisha Langlais** *Imaging of Fibrotic Salivary Gland Morphology with Nanolive Cell Explorer*
Faculty Advisor: Alexander Khmaladze, College of Arts and Sciences, Department of Physics

**Lois Pae** *Exploring the Impacts of Organic Matter Degradation on Contaminant Adsorption Property of Biosolid-Amended Soils*
Faculty Advisor: Rixiang Huang, College of Engineering and Applied Sciences, Department of Environmental and Sustainable Engineering

**Che’-Doni Platt** *Exploring the Impacts of Organic Matter Degradation on Contaminant Adsorption Property of Biosolid-Amended Soils*
Faculty Advisor: Rixiang Huang, College of Engineering and Applied Sciences, Department of Environmental and Sustainable Engineering

**Danielle Saint Hilaire** *Genetic Approaches for Conditional Deletion of Neuronal Glutamate Transporters*
Annalisa Scimemi, College of Arts and Sciences, Department of Biological Sciences

This award has been generously donated by Lita and Stephen Greenwald ‘40 to undergraduate students engaged in physical science, natural science, business finance or corporate management research.
