

## Export Controls Review Flags

- Foreign Persons will participate in the research;
- UAlbany PI will partner with a foreign company;
- UAlbany PI will host foreign visiting scholars for the purpose of research that involves certain specified technologies subject to export controls;
- Equipment needed for educational projects, experiments or research abroad will be exported (i.e., shipped or accompanying the researcher/faculty member or project leaders, including, for example, laptops, GPS equipment, other hand-held mobile devices, etc., or any device that contains encrypted software;
- UAlbany PI intends to engage in activities with or involving countries subject to U.S. sanctions;
- UAlbany PI does not intend to publish or freely disseminate the research results;
- UAlbany PI will share certain research results or educational information in any manner (including publication or presentation at conferences) with Foreign Persons - whether these activities take place on U.S. soil ("Deemed Exports") or abroad; or
- Export regulations (EAR or ITAR) are cited in the award document. If a researcher or educator accepts export-controlled technology from a government agency or from industry, or creates such technology, the researcher or educator is subject to ITAR and/or EAR regulations.
