MDS 3.0: IN-PERSON TRAINING

MDS 3.0: An Introduction

Learn the details needed to ensure a successful implementation of MDS 3.0 and gain an overall understanding on how to use the Resident Assessment Instrument (RAI) correctly.

Advanced MDS: Beyond the Basics

Learn the knowledge and skills to accurately and efficiently identify, understand and schedule various MDS 3.0 assessments, and understand the Care Area Assessment (CAA) process, including triggers, and the care plan requirements.

These trainings are designed for long-term care professionals who will be working with MDS 3.0. Participation by all members of the interdisciplinary team is strongly recommended for a comprehensive understanding of how to best use the MDS.
