Public Health Nurse Ready (PHN Ready) is an online certificate program for RNs working in public health, or RNs desiring to know about how public health works. LPNs and other RN's may find the certificate of interest, as well. All courses are self-paced and online, and reflect the Tier 1 2018 core competencies for public health nurses set forth by the Quad Council of Public Health Nursing Organizations.

The certificate consists of 9 required online courses, which should take roughly 10 hours to complete. Many of the courses provide continuing education credits. These credits (or contact hours) are awarded by course. The PHN Ready certificate does not provide credits, nor does the New York State Department of Health Learning Management System.

The Center for Public Health Continuing Education (CPHCE) is nationally known for its distance learning training, including the award-winning Public Health Live (T2B2) webcast series and numerous interactive, self-paced online courses. To achieve its mission, “to provide exemplary education and training for the public health workforce”, CPHCE offers a variety of free and affordable webinars, webcasts and in-person trainings. Nursing, CME and Certified Health Education Specialist continuing education credits are available for many of its programs. Support for CPHCE is through state and federal funding.

Disclaimer: PHN Ready was originally funded by the US Department of Labor and is now supported by the Center for Public Health Continuing Education.
