ADVANCED STANDING FIELD INSTRUCTION CALENDAR - SUMMER 2018

Below is the official schedule for the Advanced Standing Field Instruction summer sequence. Fulfillment of the course criteria for Advanced Standing Field includes completion of required field hours in the summer sequence and the advanced concentration fall/spring sequence. Starting **August 30, 2018**, students will convert to Advanced Concentration field, and will follow the Advanced Concentration field calendar for 2018-2019.

During the summer sequence, Advanced Standing students are in field 8 hours per day, three full days per week for a total of 272 hours. **Field days are typically Tuesdays, Thursdays and Fridays, beginning Thursday, May 31, 2018.**

**ATTENDANCE POLICY**

Absences from field require making up the time before the end of the field sequence. For any absence, or if a designated field day falls on an agency holiday, students have to make up the time on an alternative date that is approved by the field instructor. Time spent in travel to and from placement is not considered part of the field instruction day. Hours for the field practicum are recorded on the Field Education Attendance form, which has to be signed by the student and field instructor for each semester. The attendance form and other field-related documents are available on the Field Education website: [http://www.albany.edu/ssw/student-field-education-social-welfare.php](http://www.albany.edu/ssw/student-field-education-social-welfare.php).
