Attend this event to observe and listen to students in ABIO399 and 499 showcase their research.

RNA Institute Summer Fellowship

Applications are being accepted online.
For more information, visit: https://www.rna.albany.edu/rna-institute-undergraduate-summer-fellows-program/(listed under programs)

Questions?
Contact: Tammy Reid at tsreid@albany.edu

This is a SUMMER fellowship for undergraduate students interested in pursuing interdisciplinary research within the lab of one of our Institute faculty.

Apply by April 30!
Couldn't make it to our pre-conference workshops? Read below for key tips!

**Do's:**
- Interesting and catchy title
- Use bullet points
- Include graphs, tables
- Include color themes
- Have your Professor/mentor review it
- Include the UAlbany logo and/or logo

**Don'ts:**
- Overwhelm poster with long sentences
- Use different fonts or too many colors
- Use a dark or busy background
- Use small font
- Paste items as a picture - Make sure to insert as PDF! (to avoid blurriness)
We asked Cam and Daniel how the CURCE Accelerator Grant helped them reach their goal of presenting Business research in Texas!

**DAN**

For me, the Accelerator Grant afforded me the opportunity to go present my senior thesis in Dallas without having to worry about diving into my own pockets. The grant gave me the opportunity to network with professionals in my field and create a great memory.

**CAM**

Without the Accelerator Grant, I would not have had the opportunity to participate in the Economic Scholars Conference at the Federal Reserve Bank of Dallas. It is because of the grant that I was able to represent the University at Albany, share my research and findings, and collaborate with other students from all over the country.
Deadline to apply is May 8th!
