This semester has been unique and challenging at times. As we all have adapted to the changes required of us, we are thankful for being a part of your Fall semester.

While our events were all virtual this semester, we appreciate and thank everyone who made each one possible! If you missed out on any of them, check out the CURCE Blackboard Community Page for recordings of each event & visit the Fall Fair page!

We are especially grateful to the CURCE Ambassadors: Habib A., George H., Julie J., Maisy N.-B., Marisa H., Niara N., Stephany S., Thal B., & Zerah I. These amazing student leaders have helped CURCE provide virtual programming, develop ideas for the future, and have created each issue of this newsletter this semester.

We wish all students luck on finals & look forward to Spring 2021!
PEOPLE POWERED RESEARCH
Use Winter Session to get involved in research through online, open sourced & voluntary opportunities

Zooniverse
The world's largest and most popular people-powered research. Anyone can be a researcher - no training, specialization, or expertise required.

SciStarter
Online hub with over 3,000 projects where 100,000 citizen scientists volunteer to support discipline specific research.

The Public Science Lab
A group of scholars from diverse disciplines working to make new discoveries about daily life.

CitizenScience
An official government website designed to accelerate the use of crowdsourcing and citizen science across the US Government. 450 Federal Crowdsourcing & Citizen Science projects available!
Summer 2021 Research

Summer Research Opportunities are a great way to get experience – bonus many of them are PAID positions & are available across the country and virtually! If you missed our workshop on 'Applying for Summer Research' this month, the recording is available on our Blackboard Community Page!

Looking for more information about where to start your search? Start Here!

Stay Connected During Winter Session

CURCE will be OPEN during Winter Session! We are here to support you through Individualized Information Requests & 1-on-1 Meetings.

Don't forget to check out the Virtual & Hybrid Research Opportunities posted on Blackboard that are recruiting for Spring 2021

Enroll in the CURCE Community Blackboard Page

1. Log in to your UAlbany Blackboard account
2. In the upper right-hand corner, click "Community"
3. Find the "Organization Search" function, and search "CURCE"
4. Hover over our "Organization ID" labeled "NS-2020-Undergrad-Ed-Curce" and click "Enroll"
New Funding for CURCE in Spring 2021

In Spring 2021, CURCE will be providing students with a streamlined application process to funding that was previously administered by the Division for Research. There will be $9,750 available to students through the applications. Learn more about the awards on the CURCE Student Awards & Funding page.

Longstanding awards continue

The Situation Prize for Research & Sorrell Chesin Research Award applications will launch on January 8, 2021! Use the extended Winter Session to get your applications in before the deadline in March. Visit the CURCE Student Awards & Funding page.
Additional Funding Opportunities

The Moises L. Urena Affordable Testing Scholarship

APPLICATIONS DUE NOVEMBER 1ST | Application can be found on the Department of Academic Affairs MyInvolvement page
Questions? Email saacademicaffairs@albany.edu

PATRICIA STOCKING BROWN AWARD

Deadline: March 31, 2021

Open to all UAlbany Students enrolled in Spring 2021
$250 Award available for a student who submits an application describing a research project or class paper related to the history of feminist or social justice advocacy and activism using materials located in the Libraries’ Department of Special Collections & Archives
