Jesse Ernst, CoR Chair
Associate Professor of Physics
Arts and Sciences
(518) 442-4538, jae@albany.edu
Research in experimental particle physics.

Dr. Jeff Freedman
Associate Professor
Atmospheric Sciences Research Ctr
Division for Research
(518) 437-8737, jfreedman@albany.edu
Research includes renewable energy issues: improving wind & solar power production forecasting, resource assessment, weather & climate influences, & interaction of wind farms with atmospheric boundary layer.

Kate Coddington
Assistant Professor
Geography & Planning
Arts and Sciences
518-442-7777, kcoddington@albany.edu
Research focuses on questions of migration, borders, and postcolonial citizenship.

Shiguo Jiang
Assistant Professor of Geography
Arts and Sciences
(518) 591-8561, sjiang2@albany.edu
Research focuses on understanding land use/land cover change, forest/agriculture ecosystem dynamics, and human-environment systems through the integrated use of geospatial information technologies and spatial statistical methods.

Na Dai
Associate Professor & Chair
Finance
School of Business
(518) 956-8358, ndai@albany.edu
Research is primarily focused on corporate finance, financing for entrepreneurship and innovation, venture capital, private equity and hedge funds.

Lisset Drislane
Finance Manager
Office of the Dean
College of Engineering and Applied Sciences
518-437-4734, ldrislane@albany.edu

Lisa M. McAndrew, Ph.D.
Assistant Professor
Counseling Psychology
School of Education
(518) 442-5046, lmcandrew@albany.edu
Research to improve self-management of chronic conditions to understand patients' views of their health & use information to develop patient centered behavioral interventions.

Christopher Pastore
(Non-CoR member; FRAP A Review Chair)
Associate Professor of History & Undergraduate Director
Arts and Sciences
518-442-5311, cpastore@albany.edu
Research as a social and cultural historian of early America and the Atlantic world with particular interest in the human dimensions of environmental change.

Rae Drach, MA
Doctoral Student
Psychology, Health Behaviors Lab
Arts and Sciences
rdrach@albany.edu
Research focuses on the roles that emotion regulation and executive functioning play in health behaviors and potential addictive behaviors.
Monika Piotrowska, Ph.D.
Assistant Professor
Philosophy
Arts and Sciences
mpiotrowska@albany.edu
Research in the philosophy of biology and bioethics, focusing on the conceptual and ethical issues arising from recent advances in genetics and biotechnology.

Ajay Raghavendra
Doctoral Student
Atmospheric Sciences and Environmental Sciences
Arts and Sciences
araghavendra@albany.edu
Research includes numerical modeling, observed trends and future climate projections of heatwaves, tropical–extratropical interactions, atmospheric waves, and tropical convection.

Brian Rose
Assistant Professor
Atmospheric Sciences and Environmental Sciences
Arts and Sciences
(518) 442-4477, brose@albany.edu
Research is oriented toward fundamental questions about the climate system at the global scale.

Oscar Williams
Associate Professor
Africana Studies
Arts and Sciences
(518) 442-4730, owilliams@albany.edu
Conducted research in areas including 19th and 20th Century African American history, antebellum slavery, and African American intellectual history.

Priscilla Seaman
Senior Assistant Librarian
University Libraries
(518) 442-3546, pseaman@albany.edu

Ronald Toseland
Distinguished Professor
School of Social Welfare
(518) 442-5353, toseland@albany.edu
Interest in applied gerontological research and research on clinical social work practices and group work.
